

QuickStart Guide

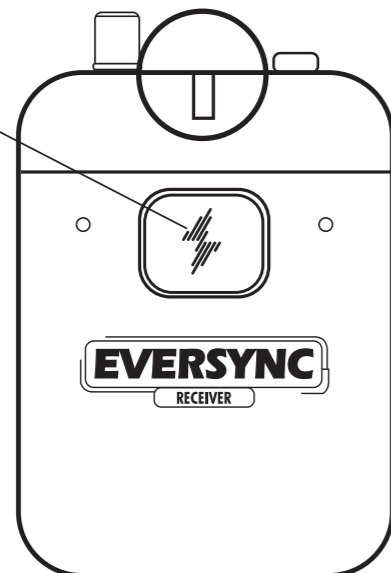

When using multiple sets of ES-10T transmitters to transmit different monitored audio signals, it is necessary to ensure stable wireless transmission by setting each set of ES-10T transmitters to different wireless channels. The ES-10T transmitter has four channels (A, B, C, D) available, allowing for the simultaneous use of up to four sets of ES-10T transmitters.

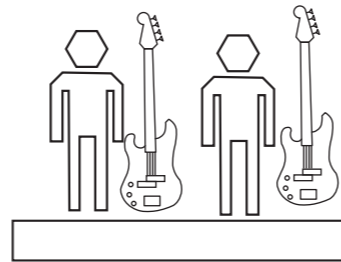

The ES-10T transmitter can pair with multiple sets of ES-10R receivers simultaneously. Please remember that each set of ES-10R receivers must be paired with the ES-10T transmitter before they can be used.

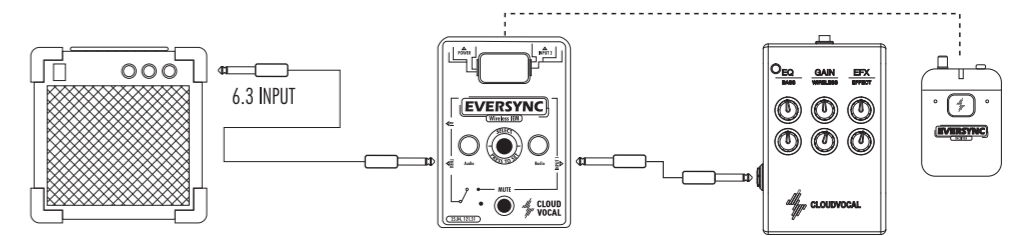

Press and hold the volume mode switch button to switch between different modes. The main display light indicator will show the current volume mode.

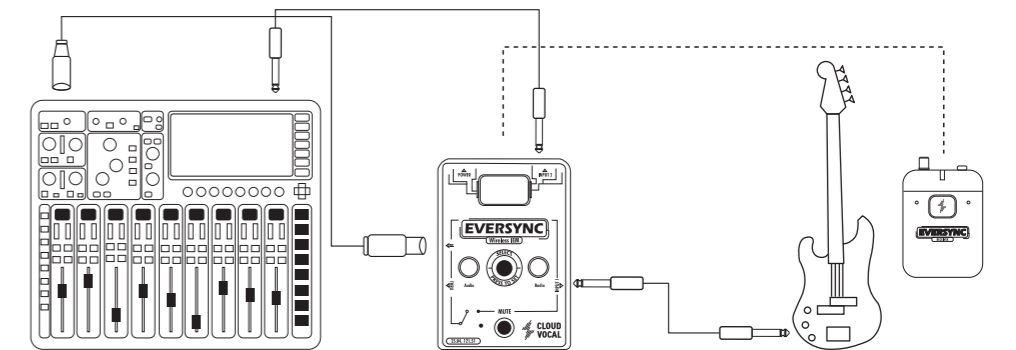

Flashing: Power on but not yet paired with the transmitter.
 Solid: Paired with the transmitter.
 Blue light: Full volume mode.
 Green light: Volume limit mode.
 Purple light: Connected to USB Audio device.

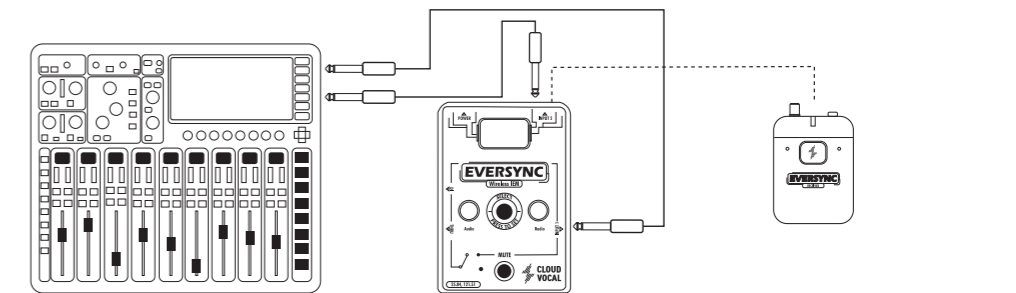

With ISOLO:
 Monitor ISOLO audio while simultaneously outputting to speakers.

With Mixer:
 During group performances, monitor your own and other performers' audio through the sound console.

Stage Monitor:
 Replace the floor monitor with IEM

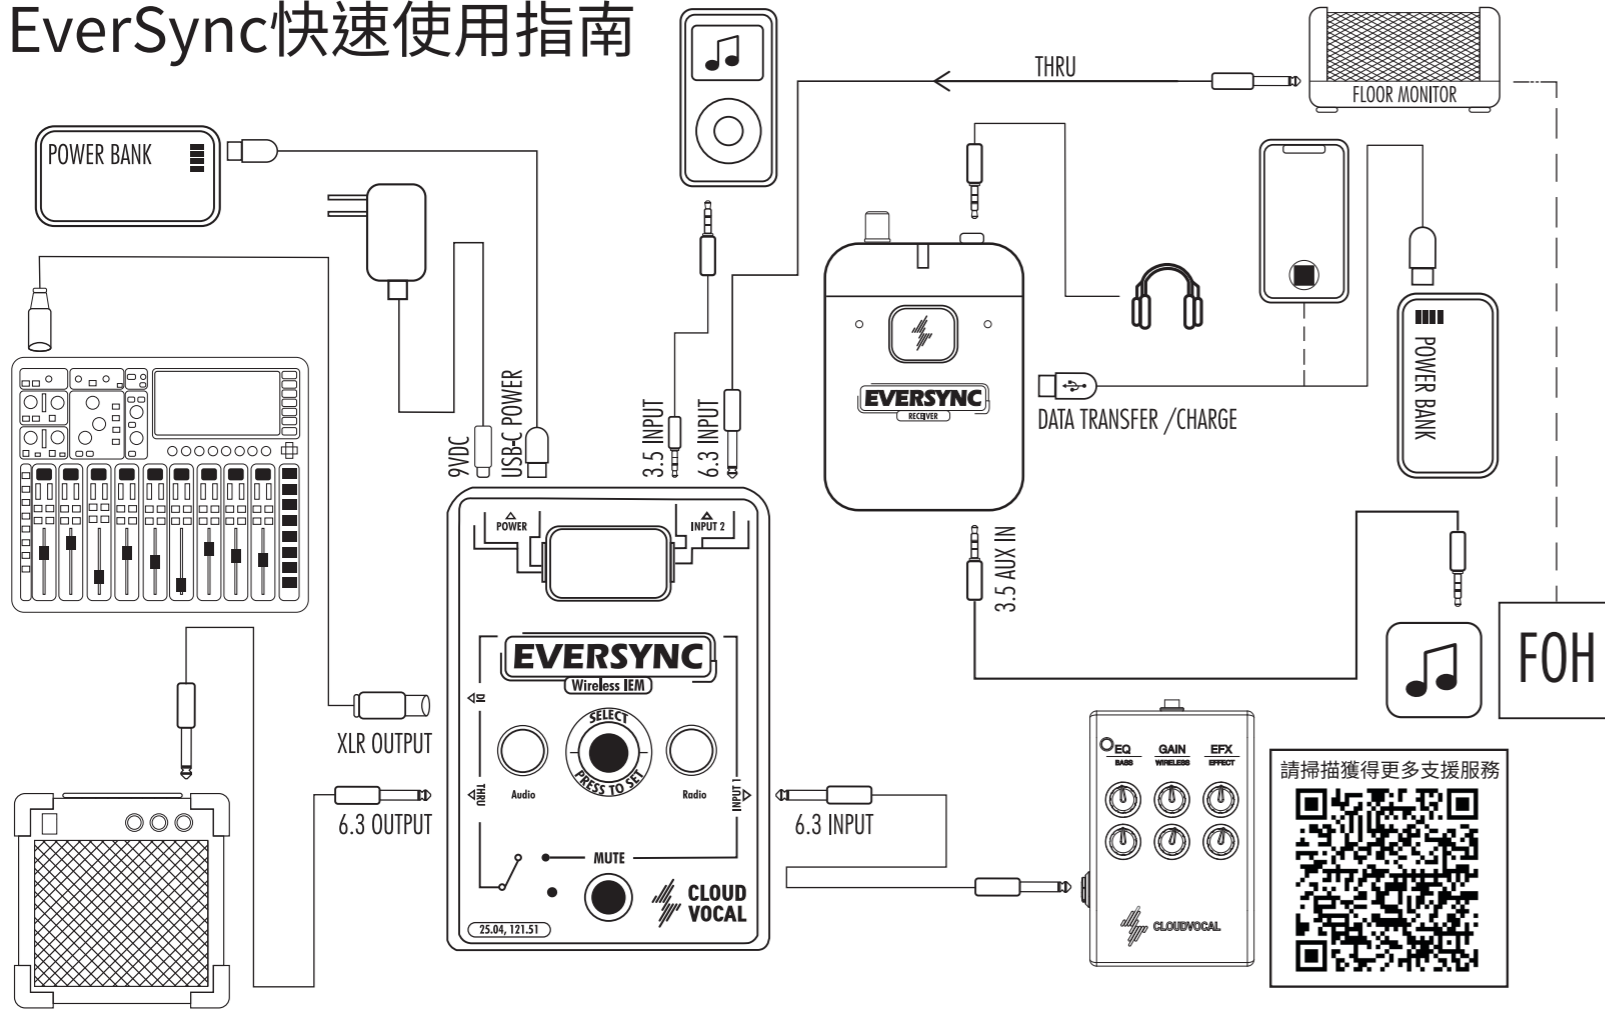

USB recording: Use a USB-C cable to connect to devices that support USB Audio for wireless audio recording or video recording.

*Please use the provided original cable for charging/recording audio and video.

EverSync快速使用指南

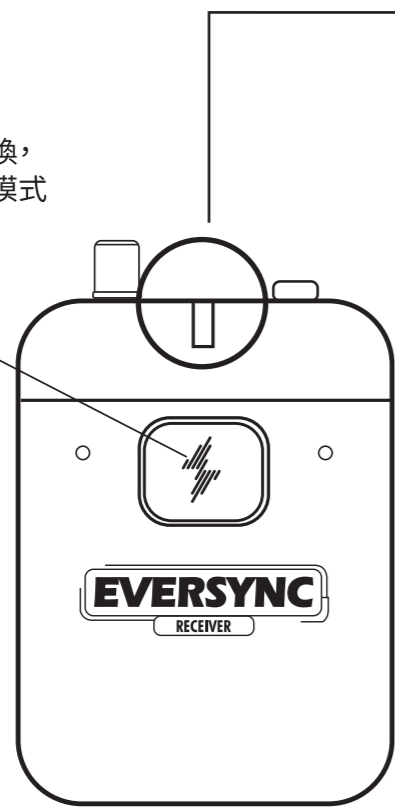

使用多組ES-10T發射器傳輸不同監聽音訊時，為確保無線訊號穩定傳輸，需將每組ES-10T發射器設定在不同無線頻道。

ES-10T發射器共有四個頻道(A,B,C,D)，因此最多可以同時使用四組ES-10T發射器

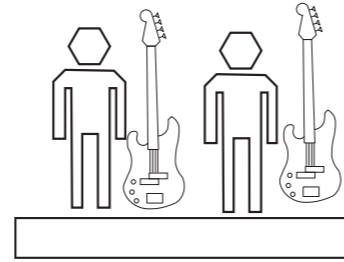

ES-10T發射器可同時配對多組ES-10R接收器
請記得每組ES-10R接收器都要與ES-10T發射器完成配對才能開始使用

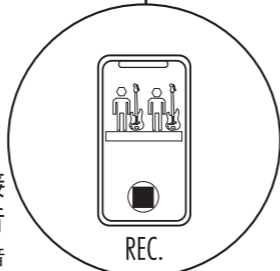

長按音量模式切畫鈕進行切換，主顯示燈號表示目前音量模式

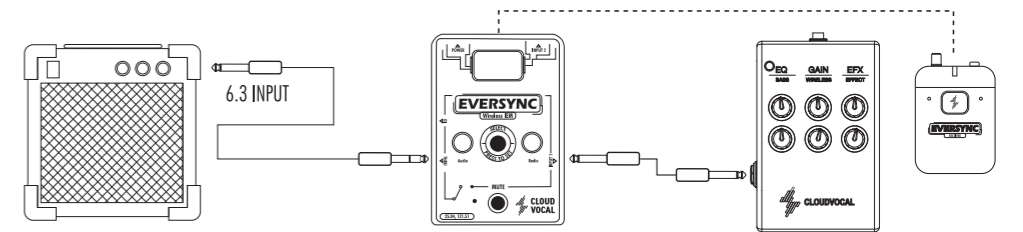

閃爍：開機但尚未與發射器配對
恆亮：與發射器完成配對
藍燈：全音量模式
綠燈：音量限制模式
紫燈：連接USB Audio 裝置

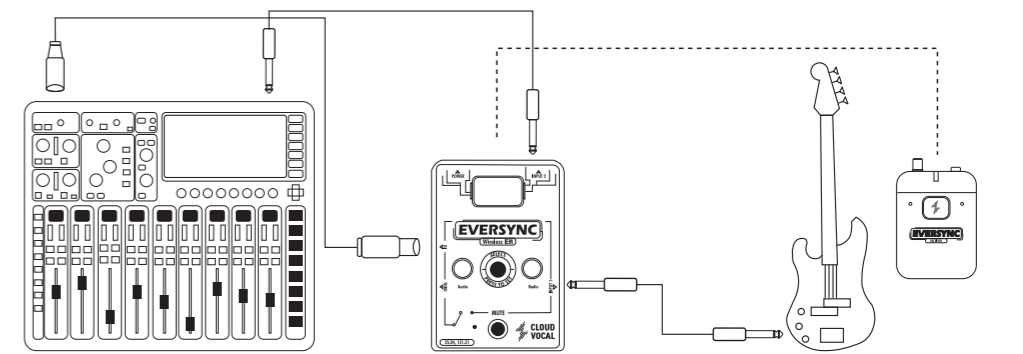

USB 錄音：透過USB-C 傳輸線連接支援 USB Audio 的裝置進行無線音訊的錄影或錄音
*請使用原廠提供之傳輸線進行充電與錄影錄音

配合 ISOLO 使用時：
監聽 ISOLO 音訊，同時輸出音箱

配合音控台：
多人演奏時，透過音控台監聽自己與其他演奏

無線分享控制台音訊
取代地板監聽喇叭使用時
