

# SERVEREDGE 24 PORT PATCH PANEL 1RU, UTP SHIELDED AND CAT6A 10GBE SHIELDED FEMALE / FEMALE COUPLER KIT

PART NUMBER: **C6A-PP24ULC-CUP-SH**  
 BAR CODE: **9352399003256**

## PRODUCT DESCRIPTION

The Serveredge 24 Port Shielded Patch Panel and CAT6A 10GbE Shielded Female / Female Coupler protect critical data from EMI (electromagnetic interference) and RFI (radio frequency interference). This makes them ideal for use in health care, manufacturing, and other environments where EMI and RFI may be present.

They are designed to maximise your network performance and keep your infrastructure ready for future upgrades. The space saving design of these patch panel frames means that they will fit into the standard 19" cabinet and take up 1RU of space. With the built-in cable management and write-on labels, organising your cabinet will no longer be a chore.

## PRODUCT SPECIFICATIONS

Length: 482.6 mm  
 Depth: 10 mm  
 Height: 43.65 mm  
 Rack Height: 1RU  
 Colour: Black
