Precautions for use

1、To ensure your personal safety, please do not wear or place the headset too close to the pacemaker (less than 10CM); do not insert the plug into a power outlet.

2、Children should use this device under adult supervision. This product is not a toy.

⚠️ Using headphones at high volume—especially for long periods of time—may cause damage to your hearing.

4、Therefore, before switching between various audio sources or plugging in headphones, set the volume control to the lowest.

5、For traffic safety, do not use earphones while driving or riding a bicycle.

⚠️ CAVEAT!

- The battery must not be disassembled, hit, squeezed or thrown into fire. Do not expose the battery to conductive materials, liquids, fire or high temperatures.
- Improper battery replacement will cause explosion hazard, please do not replace the battery privately.
- Do not allow metal objects to touch the terminals of the battery. If the battery is swollen, leaking, discolored, peculiar, or has any other abnormalities, do not continue to use it.
- Do not place the product in a place where the temperature is too low, do not drop, vibrate strongly, or hit the product with hard objects to avoid damage; do not use the battery after it is immersed in water.
- if the battery leaks, be careful and dispose of the battery immediately in accordance with local battery disposal laws and regulations.
