

12V-24V input voltage

100% Water & dust proof

4 Bright SMD LEDs

5 year warranty

## Number plates are clearly seen...

LED Technologies have just released a brand new Licence Plate Lamp into their range. Featuring a tough polycarbonate lens with an ABS base for extra durability and four super bright SMD LEDs, this lamp will surely impress. They come standard in 12-24 volt with 23cm of hard wired cable and are backed by a 5 year warranty. One lamp on the long edge of a licence plate is required for ADR compliance (with ECE approval) which make them a very economical alternative. The 40 series licence plate lamps are perfect for any vehicle or trailer application where licence illumination is required.
