PAR FIT™

The Hydraulic and Lubrication
 Interchange Element Handbook of Part Numbers
 By Manufacturer and Alpha Numeric Listings

ENGINEERING YOUR SUCCESS.

Over 50,000 interchange elements available today.

What is The ParFit™ Handbook?

Parfit is Parker's global trademark for manufactured parts that interchange exactly with its competitor's parts, often improving on the original manufacturers' specification.

This updated version of the Parfit interchange element part number handbook is, for the first time, provided in a pdf format in two listings.

1. In A-Z alphabetical order by Manufacturer Name.
2. In Alpha Numeric order. The manufacturer part number is listed with the Parker Parfit equivalent item number alongside.

Contents

Pages numbered 1 to 883
Part Number listing 'By Manufacturer'

Pages numbered 884 to 1757
Part Number listing in 'Alpha Numeric Order'

Note:
Parfit Part numbers shown in the darker yellow tint and bold type are preferred part numbers. Unbolded element part numbers may be subject to longer lead times.
Consult Parker at:
filtrationinfo@parker.com or visit:
