

### Instructions on how to use the Polishing Cloths.

After firing your piece of Precious Metal Clay, polish well all over using a brass brush, liquid soap and water.

To achieve a higher shine, polish well all over using these cloths. Start with the Dark green cloth, and follow with the Grey, Blue, Turquoise, Pink and finally White.

Cut the cloths into a manageable size, and use the abrasive coloured side of the cloth, and rub the piece of silver all over with each cloth for 10 - 15 minutes. Rub firmly, making sure you get in to all the recessed areas where possible.

When you have reached the White cloth, the silver will look noticeably shinier.
