

◆→ WELDING FIXING TOOL

The Welding Fixing (Ref. 974) Tool is used to facilitate the welding process on a marine frame.

This re-usable tool is designed to hold the frame in position during the welding process, avoiding deformations due to high temperature.

◆→ LUBRICANT

Hawke Lubricant (Ref. 967) is used to facilitate positioning the blocks and elements of a transit during an installation.

The lubricant remains soft and will not dry out with the passing of time, ensuring that future modifications or dismantling will not be impeded.
