Introduction

Extraordinary everyday places

We know those precious dreams of yours — to surround yourself with a lifestyle you aspire to. However, more often than not those dreams come at a price most people can't afford. To make our aspirational products accessible to more people we combine the best product innovations with what we call 'emotional design', all delivered at a market-leading price. At AM.PM we make everyday places extraordinary.

Our designers

Design that makes your heart race

Our passion to create something extraordinary, something that excites a multitude of human senses, is at the heart of everything we do at AM.PM. Of course we develop the best solutions in ergonomics, form and function but what's equally as important to us is how our bathroom products make you feel. From the moment your eyes take in our signature curves and your hands intuitively move over our smooth-action controls, you are connecting emotionally with the AM.PM experience. This unique design philosophy, what we call 'emotional design' is the origin of our

iconic look and unmatched tactile experience. We push the boundaries and inject fresh thinking into our collections by working with best-in-class European designers from completely unrelated industries. The result is a timeless, sophisticated style with distinct Nordic / Italian influences.

DanelonMeroni

Claudia Danelon and Federico Meroni

This innovative London-based product design studio combines expertise in architecture and interior and product design with an understanding of brand experience to create products that are beautiful, functional and desirable.

Design3

Bjoern Vibrans and Wolfgang Wagner

Design3 is one of the world's leading design studios. Founded in 1987, the Hamburg based studio's approach is based on a modern interpretation of the classic German design values of simplicity, functionality and ease of use. Their work has won more than 100 international awards.

GP designpartners

Christoph Pauschitz, Rudolf Greger, Christian Rukower, Roland Kaufmann

GP is located in Vienna and was founded in 1992. A team of highly motivated designers, they offer more than 20 years of industrial design experience with an award-winning variety of product design — from bathroom facilities to cableways and from baby products to solar lights.

AM.PM Design

More than 20 designers

AM.PM Design is our inhouse design studio that consists of highlevel professionals. AM.PM designers take inspiration outside the sanitary industry, constantly tracking trends in car, electronics and household goods design in order to create really extraordinary products.

Our awards

94 design awards in thirteen years – faster than anybody else in industry

At AM.PM our unique design philosophy has gained us a reputation for excellence, winning us more design awards in quick succession than any other bathroom brand over the last eight years. Never before have so many products been awarded across all categories and price points, coming from the industry's most respected names including Red Dot and iF Product Design Awards.

With design so firmly at the core of our business, it's not surprising that our work is getting noticed.

That's because we set the bar high at AM.PM. Only products that deliver all our expectations make it into our collections — boasting on-trend designs, outstanding features and industry-leading technologies. Our design engineering process is comparable to that of a luxury car; relentless over every detail, refining and refining again until absolutely perfect.

We believe if something is worth doing, it's worth doing in an extraordinary way.

Aspirational bathroom collections

Discover nine unmatched collections by AM.PM, each one with a unique character of its own. Nine ready-made bathroom solutions, their sophisticated details and iconic shapes creating a single harmonious whole. Never before has choosing bathroom products been such a sheer pleasure. By bringing you the joy of total functionality and advanced technologies, combined with the excitement of our emotional design, at AM.PM we make your everyday life truly extraordinary. You are sure to identify yourself with one of these.

Inspire V2.0

Really extraordinary

Smart is inspiring. Originally created to give you the edge over conventional bathroom designs, the incredible Inspire range has been totally reworked to bring you styling and technology that is way ahead of its time. Packed with stunning features such as the TouchReel control option, that will revolutionise your bathroom experience, this smart designer range comes at a price that can't be matched in today's market.

MPAWPX1001WG
Toilet roll holder with box
AIA341500
Rimless wall-mounted
toilet with TouchReel electronic e-bidet seat
CCCIB1700SCAGCCCIB1700SCAG

So minimalist and on-trend, the new Inspire V2.0 bathroom furniture is as smart as it is attractive. Its ultra-thin, aluminium mirror features integrated touch-controlled lighting that provides the perfect light, at the perfect angle for applying make-up. Another market-first from AM.PM is the under-sink drawer; specifically designed to fit all your beauty products without an inch of wasted space.

Feel the pleasure of a truly amazing showering experience. With the all-new Inspire V2.0 ShowerSpot, it's at your fingertips. The mixer features two handles for intuitive control of the overhead and hand showers. Just choose the desired spray mode by pushing the handle, then turn it to adjust the flow. The setting will remain unchanged until your next shower. The thermostatic mixer maintains the preferred water temperature and features a cleverly integrated shelf for your favourite shampoo. And you'll love the way the Inspire V2.0 hand shower feels with its tactile, soft-touch faceplate.

The new square shape in AM.PM ceramics is now also available in ultra-trendy matt black finish. Introducing our unique, first-to-market Twin Side technology — black toilet bowl featuring two different coatings: matte outside, glossy inside. The seat is solid matt black duroplast, right the way through.

Black is a bold and stylish colourway, that will add a touch of drama to any bathroom interior or create the complete look with iconic products from the Inspire V2.0 collection. The matte finish, coupled with the concise hi-tech shape is perfect for premium spaces.

Spirit V2.0

New spirit of the extraordinary

22

23

Your world will never be the same again. The totally reworked Spirit range is leading a complete revolution in bathrooms. Packed with innovations and new technologies, this extraordinary collection delivers performance and trend-setting style that will simply amaze you.

Design by Design3, Germany.
Update by Design by GP designpartners, Austria and DanelonMeroni, UK

Wall-mounted vanity unit MSBAFXX1002WG
Rimless wall-mounted
toilet with soft-closing seat cover CSB17005C
Single-lever basin mixer FSA02100

Spirit V2.0

Looking for something extraordinary? The super-ergonomic design of these basin, shower and bath-shower mixers has to be experienced to be believed. Unlike other mixers, the new generation Spirit V2.0 range works much more intuitively by pushing, not pulling. That's innovative! Incredibly easy to use, the organic-shape handle nestles comfortably into the palm of your hand, responding to the slightest pressure to control temperature and flow with remarkable accuracy.

Spirit V2.1

New and improved in so many ways, the elegant Spirit V2.1 mixers may appeal to more traditional tastes. This range has been restyled and re-engineering to bring it bang up to date with our very latest designs and technologies, offering the same high level of comfort and ergonomics. Designed to fit into the palm of your hand, the joystick handle works so smoothly with the super cartridge within to control temperature and flow perfectly.

Func

Function, with fun

With Func, functionality takes center stage. From clever storage solutions to sleek and smooth control mechanisms, this collection makes the end user's experience more than just effortless. It makes it thoroughly enjoyable. Welcome to the perfect fusion of functionality and fun. It's Func.

Design by Brandis, Germany, Design 3, Germany and DanelonMeroni, UK

Single-lever basin mixer FFA02100
Tall cabinet MFACH04029WG
Wall-mounted vanity unit MFAFUX1201WM

Need quick access to your everyday essentials? Look no further...
The Func Collection's vanity unit with semi-integrated washbasin takes care of all your favourite accessories and everyday items. It has enough room for the whole family's essentials. The elegant basin's built-in shelf has an impressive amount of storage space. The furniture design integrates convenient open shelving too, so you always have everything to hand.

Extraordinary design, as if it came to us from the future, makes this shower system an eye-catcher in the shower area. The thermostatic mixer not only maintains your chosen water temperature; it is also the perfect storage accessory. It comes equipped with a generous glass shelf so your showering essentials are always at your fingertips.

Choose maximum showering pleasure with the intuitive control panel and ergonomically-designed handle. Increase/decrease the water flow and temperature using the control dial on the side of the mixer. Set and forget — the settings you have chosen will remain unchanged until your next shower. The thermostatic mixer allows you to switch between the two showers at the touch of a button. Highlight: you can use both hand and overhead shower at the same time.

From accessories to mixers, the smooth shapes and 360° storage solutions are reflected literally in every product of the Func collection. At AM.PM, we believe the little details are just as important as the bigger ones.

Take bathroom hygiene to the next level with this wall-mounted, wash-down toilet and toilet smart seat from the Func collection! Its rimless design means that nothing can hide — everything gets hygienically washed away. The stainless steel, self-cleaning nozzle features five settings, and you can choose six different levels on the shower water temperature and drying functions too. For night-time comfort, this smart toilet is equipped with an orientation light.

Gem

Gem for your everyday

Looking for a no-nonsense range that looks cool and ticks all the boxes? Then the brand new Gem range is for you. With its distinctive edging and outstanding hexagonal shape, it's a real diamond of a range at such an affordable price. We've thought of every detail with this stylish collection, from great ergonomics to high performance, it's got everything you need for your bathroom.

Design by GP designpartners, Austria and DanelonMeroni, UK

Single-lever basin mixer FGA02100
Double towel hook AGA35600
Wall-mounted vanity unit
MGAFHX07522WG44

Gem's trensetting design usually comes with a much higher price tag. The narrow cabinets with deep, capacious drawers to carry 35kg will fit a bathroom of any size. Gem is the first range to introduce the most advanced push-to-open fittings and contemporary colours and finishes: you will find both glossy and matt options.

The wall-mounted toilet from the Gem collection blends beautifully into your bathroom with its simple, angular shape and rounded edges. Its rimless construction means there are no rims or hidden areas, giving full visibility and access to the bowl's internal surface.

Sleek and sporty, Gem's distinctive hexagonal form carries through effortlessly on all of our mixer taps and shower products to create a range that combines high-end looks with complete practicality. It's all in the detail. Available in a choice of sizes to fit your budget and your basin, with a larger body and a wider spout, these mixer taps are a real treat to use.

The most anticipated model in the Gem collection: the built-in basin mixer is the answer to the changing needs of customers who are looking for simple and stylish bathroom solutions. Now in ultra-trendy matt black, its design was developed by the world-famous studio GP designpartners.

Gem's iconic styling turns even the simplest of bathroom accessories into cool design features that you'll just love using day after day. Gem's accessories collection includes everything you need from a soap dish to a toilet roll holder.

Flash

A flash of inspiration

The Flash collection leaves a lasting impression from the very first moment. Clean, minimalist lines, combined with incredible functionality and flexibility designed for everyday use. The result? A bright flash of a collection, that overshadows anything else at this market positioning.

Design by Brandis, Germany and DanelonMeroni, UK

Single-lever basin mixer FNA02100
Washbasin for wall-mounted vanity unit
MNAWCD1202WG
Wall-mounted vanity unit MNAFXX120GM

Exceptional in design, practical in function; that is the Flash bathroom furniture collection. A fusion of textures, creatively mixing wood and matt finishes for a tasteful solution for those that love bold design. The Flash furniture range is available in two trend-leading colours, offering both open and closed storage systems.

The conical bowl, with its strictly aligned forms, is a perfect example of traditional German design. Created by our own in-house studio, this stylish short projection design is a great space-saver in the bathroom. It comes with a specially-designed duroplast soft-close seat, which incorporates a 'microlift' function. The slim wrap-over seat features a built-in, one-button, quick-release mechanism.

Flash is an extensive collection, covering a wide range of bathroom and showering categories from built-in bathtubs to mixers. It's the answer to all your needs.

X-Joy

Extraordinary everyday joy

58

59

X-Joy brings high design to the mass segment: beautiful forms, quality materials and clever features are now accessible at a surprisingly affordable price. It's our everyday champion. Making every day a little more extraordinary.

Design by GP designpartners, Austria and DanelonMeroni, UK

Single-lever basin mixer FXA02100
Single-lever bath and shower mixer FXA10000
Wall-mounted vanity unit MXAFHX0802WG

The most aesthetic combination of colors and textures: the white glossy facades are complemented by a light wood finish. Eco-friendly and surprisingly durable polyacrylic enamels — a special painting technology in 7 layers surpasses the technology of applying auto enamel from leading German brands and provides a rich color throughout the entire service life.

The X-Joy toilet is sure to please with its smooth, elegant silhouette and exceptional functionality. The slimline, low profile seat adds to its elegance, and its rimless design assures 100% hygiene and 0% spray.

Give your bathroom an upgrade with a wide range of mixers from the X-Joy collection. Designed to exceptionally high standards, they are all are equipped with exclusive AM.PM cartridges. In addition to their high performance design and functionality, they also feature an Everlast surface that's extra quick and easy to clean.

Hit

Nº1 hit on the bathrooms chart

The Hit collection stands for clear lines and functional design. Smooth surfaces and geometric shapes highlight its simplicity and visual purity. With this collection you will turn your bathroom into an absolute hit that will amaze everyone.

Design by GP designpartners, Austria and DanelonMeroni, UK

Single-lever basin mixer FTA02200
Wall-mounted vanity unit MTAFOX1002WG

With its minimalistic design, Hit bathroom furniture makes an elegant impression in any bathroom. Its discreet metallic handles give a refined, understated look. Two of the pull-out compartments of the vanity unit feature the Soft-Close system, for a touch of luxury.

This wall-mounted toilet is love at first sight with its ultra-fashionable form in the Dynamic Organic style. A compact design solution: it works perfectly in any size bathroom thanks to its 49cm short projection.

Hit accessories are the perfect completion of this impressive collection.

Sensation

Masterpieces that excite

74

75

Inspired by organic shapes and perfected by the dynamic lines of human-crafted objects, Sensation is the range for the sophisticated and sensual for those who cherish effortless beauty and flawless masterpieces.

Design by GP designpartners, Austria, and DanelonMeroni, UK

The gently rounded ceramic of the wall-mounted toilet from the Sensation collection is complemented perfectly by its equally rounded seat, continuing the curves seamlessly for a truly aesthetic finish.

Embrace a whole new level of comfort, thanks to the adjustable bidet modes: back, lady and massage, as well as a luxurious seat heating function. The built-in stainless steel self-cleaning nozzle helps prevent bacteria growth, and to top it all, enjoy the delicate mood lighting, designed for creating subtle ambience at night.

The Sensation collection is the best way to experience what emotional design is all about. Every product is perfected — calculated curves and dynamic organic shapes allow the products to work together easily, creating a coordinated look for new emotions every day.

Every detail of the furniture in this collection is destined to highlight the taste of its owner. The specific design of the washbasin creates the feeling of weightlessness as if it's floating on air. A variety of fashionable designs and functional features, such as full-extension drawers, will satisfy even the most sophisticated desires. Exquisite Sensation furniture is perfect both in functional details and design, thanks to ultrasensitive sensors, adjustable warm/cold lighting, double mirrors and organisers.

Like

You will like it

The Like collection brings a profusion of exciting features and superb design that you wouldn't expect to find at a price this attractive. You will definitely like the range's stylish contemporary design and surprising functionality.

Design by GP designpartners, Austria, and DanelonMeroni, UK

Single-lever basin mixer FLA02100
Thermostatic bath and shower mixer
FLA50000
Hygienic set FOHLA600

Elegant, strong and generously sized, Like's mixers come in a fine range of shower, bath, washbasin and hygiene sets. The design is once again packed with trendy twists and smooth aesthetics.

The Like wall-hung WC has an advanced rimless option, FlashClean for maximum hygiene and ultimate safety — an all-new feature for this segment. It prevents oversplashing of water and gives complete access to every area inside the bowl. Cleaning time is just a question of minutes.

Like's designer hook is not only large in size, but also in strength and practicality. The sleek and stylish shaping also resembles a happy, smiling face – which yours will become whenever you encounter Like.

The superb flexibility and incredible value of Like's accessories give the users a wealth of opportunity to tailor their room the way they want. Like nothing else for such a generous price.

Products specifications

Unique in every detail

You will never find an unremarkable product in AM.PM collections. Our designers' and engineers' close attention to minute details make it possible for every single product to become a real hero in your bathroom, bringing you new sensations. Emotional design, cutting edge functionality and high-demand technologies are characteristic for every AM.PM product, because we want your bathroom to be extraordinary in every detail.

Inspire V2.0

Sanitary ceramics

Introducing an extraordinary combination of premium functions — an award-winning toilet, now available with the sleekest, high performance bidet cover. Forget the high-priced, bulky electronic covers you've seen before. Now, for the first time ever, AM.PM makes this upmarket product affordable for everyone, brought to you in a cutting-edge design that matches the updated Inspire wall-mounted toilet perfectly.

Wall-hung WC TouchReel

CCC50A1700SC

Smart seat equipped with TouchReel technology. Change bidet modes, adjust water temperature, nozzle position and water pressure intuitively — all using a rotating control reel. The system can also be remote controlled.

Ultra-thin seat and cover with easy-off and soft-close hinges. First to market: UF hardplastic seat with its durability, pure-white colour and scratch resistance comes with a built-in preheating function.

FlashClean: a new generation of rimless toilets with no plastic parts, makes it 100% hygienic and eliminates spray.

Inspire V2.0 Washbasins and bathroom furniture

Inspire V2.0 furniture is the perfect choice for lovers of minimalist design. It was created for today's modern consumers with busy lifestyles. The extensive choice of unit options gives endless possibilities to plan the perfect bathroom layout, designed to suit the way you live. The Inspire V2.0 furniture range comes in all the most popular sizes up to 120 cm, and exquisite matt finishes in timeless white, elegant grey and graphite grey.

Vanity unit, 100 cm

M50AFHX1003

114

Extraordinary, minimalistic design encapsulating advanced forms.

Ultra-thin, the sleek, composite marble top with its deep, ergonomically shaped basin is designed specifically to suit the vanity unit in both style and perfect proportion. It features a special shelf for the mixer too.

115

Gorgeous designer finishes in on-trend, matt colours. Environmentally friendly, long-lasting polyacrylic enamels are applied using a special 7-layer paint technology.

A whole new take on bathroom storage — keep everyday items close at hand with the cleverly designed secret drawer-front organiser. It extends forward by 12 cm — perfect for when applying make-up. Use of space in front of the basin offers a new level of functionality.

New in the affordable price segment: premium push-to-open Blum fittings and advanced soft-close system for the softest, smoothest drawer action in its class.

Inspire V2.0

Mixers and showers

Why make it just a fantasy, if you can make it real? That's the thinking behind the latest Inspire V2.0 mixer range. The all-new, iconic TouchReel push-and-turn handle — a supreme innovation by AM.PM — provides the ultimate in water control. Fine tune flow and temperature, set the automatic shut-off or activate the internal cleaning — but aside from these impressive features, first and foremost prepare to be enthralled by the sleek, contemporary design and the unrivalled price.

Electronic basin mixer TouchReel

F50A02400

134

Extraordinary design: the reel-shaped control has the futuristic look and feel of hi-tech devices.

135

First to market innovative mixer available in mass segment.

User-friendly push-and-turn TouchReel control: turn the water on by pressing lightly and adjust water flow and temperature with a smooth, rotating action.

This is destined to be an unforgettable user experience.

Like Kitchen mixers

For more freedom of movement at the kitchen, AM.PM kitchen mixer with swivel spout is an ideal choice. The latest generation cartridge controls water pressure and temperature with amazing accuracy.

Kitchen mixer

FLA05000

194

Geometry for better living.

Specially designed for AM.PM SoftMotion ceramic cartridge 35 mm provides optimal temperature control and allows mixer to function under pressure drops in the water supply system.

195

The spout can also be swivelled, you can move it in a swivel range of 360°, making you very flexible when washing up.

Cleaning the tap is so easy, thanks to a durable surface.

Sensation Accessories

Our jewellery box is not only flawlessly designed, it's been created to provide a special place for your precious things. The iconic curved shape reflects the signature look of the rest of the range, because every Sensation bathroom product is a true masterpiece.

Big jewellery box

A3022000

200

A collection of masterpieces: the iconic dynamic organic shape is perfected, the curves coordinate seamlessly with the rest of the range.

201

Flawless look: the material is shock and scratch-proof, capable of withstanding extreme temperatures, while the inserts made of 4 mm matt glass minimise water marks.

Trustworthy quality: single piece of high quality, Grade-A brass.

Sensation Wellness

The Sensation baths are carefully designed to mirror the wonderfully sophisticated design of the entire collection. Take the brilliant backrest, designed at a perfect 125-degree angle to raise your level of comfort to the maximum, or the beautifully sculptured headrest, a growing trend.

Acrylic bathtub 180x80cm

W30A-180-080W-A

228

Exceptional dynamic organic design, a growing trend in the automotive industry: nature-inspired shapes complemented by dynamic lines.

229

Totally coordinated look: side panel finishes the Sensation furniture, all curves match perfectly with other products in the range.

Sophisticated details: ergonomic headrest — a trendy feature for maximum relaxation.

Unmatched capacity: ultra thin rims result in more space inside for maximum bathing comfort.

Warm for longer: due to its low conductivity polyurethane it keeps the water temperature ideal for 30 minutes longer.

A close-up photograph of a woman's face, partially obscured by a semi-transparent dark grey overlay. She has her eyes closed and is washing her face with her hands, which are covered in white soap suds. The background is a soft-focus view of water with bubbles.

Innovations

Making innovations affordable

Creating innovations and bringing new technologies from the most advanced industries is the keystone of AM.PM's R&D team. We avoid straightforward solutions: every AM.PM product from ceramics and wellness to mixer taps and accessories correspond to the highest standards, and feature the most up-to-date trends and technologies. Our goal is to make innovations accessible for all. This is what drives us to make them truly affordable.

Innovation TouchReel

Now it's real!

Meet the innovation: our brand new TouchReel technology, based on push-and-turn smart control.

Easy and intuitive — select and adjust all product functions by smoothly rotating the control reel. Enjoy the new level of smart control with TouchReel.

TouchReel technology integrated in our new Inspire V2.0 mixers and toilet seat

Inspire V2.0 mixers control

- Switch on/off
- Water flow adjustment
- Auto-run option — preset running time with auto shut-off for convenience and water efficiency

Inspire V2.0 smart toilet seat control

- Stylish white LED-indication for use in night mode
- Adjustable bidet modes: back, lady, massage
- Water pressure control
- Accurate water temperature control

Innovation

Unique hygienic solution

The AM.PM multifunctional hygienic solutions bring you the widest range of possibilities for your bathroom. No other brand provides innovation quite like this. Multiple functions in one simple product. The mixers are equipped with a progressive cartridge, for the ultimate in comfort using all features and functions. The hygienic shower is fully integrated into the mixer to save space. The whole product is a stylish and practical shelf, ideal for keeping everything you need at your fingertips. Underneath the shelf you'll find a toilet roll holder and towel hook — perfectly positioned for your ease and convenience.

Innovation

Innovative Shower

TPS Cartridge

Built-In 3-way Diverting Function

Patented TPS Cartridge has a built-in 3-way diverter inside the cartridge with 2-inlet and 3-outlet ports. This technology enables streamlined faucet design by eliminating extra diverters and complex structure with diverter mounted on the faucet.

Temperature Memory Function

TPS Cartridge memorizes the last shower temperature setting through its patented independent temperature control, thus the user have no need to wait or adjust for comfortable showering temperature every time they turn on the faucet. Conventional cartridge mostly cannot provide water of exactly the same temperature when closing/re-opening the faucet or adjusting the volume of water flow.

This feature encourages consumers to turn off the faucet when not needed as water temperature remains the same, enabling them to save significant volume of water.

Water Saving Function for a Green Environment

Widened to 90°, easy-to-control rotating knob of TPS Cartridge allows users to reduce volume of water flow easily for huge water saving compared to the conventional lever handle that has only limited 25° control range.

Also, temperature variation during volume change of water flow is another factor forcing consumers to use conventional faucet at fully opened volume of water flow. With TPS Cartridge that provides water of consistent temperature water at all circumstances, you can join in saving water to create a greener planet for ourselves and the future generations to come. and the future generations to come.

Innovation Multidock

Universal basic unit
F100100

MultiDock is an absolute innovation from AM.PM. and, probably, the most faultless solution on the market. It's a multi-purpose module matching any functional element including thermostatic mixers. Speed of installation is just one of the benefits that makes MultiDock different from its competitors. While working on MultiDock, we thoroughly analysed the needs of our customers and professional plumbers, gathered the best, newest engineering construction and created a product that surpasses all others of its kind.

Eco

FlashClean combines simple cleaning with an environmentally friendly approach. Through careful analysis and research, AM.PM have achieved a truly unique combination — an eco-friendly 4.5 litre flush and a fully washed bowl, leaving no unwashed areas to harbour germs. As a result, water consumption is reduced by 25% without compromising flushing efficiency.

Clean

FlashClean truly brings a new generation of rimless WCs. Thanks to the perfectly engineered geometry of the bowl, everywhere is accessible — there are no hard-to-clean areas. All this, combined with innovative flushing water dynamics, makes AM.PM rimless toilets the most hygienic and germ-free products on the market today.

No oversplashing

FlashClean's bowl has been designed to completely eliminate over-splashing, which means it meets the most stringent EN requirements. According to European standards, tests are carried out to measure the extent of water droplets on the floor, and our laboratory tests show FlashClean toilets have no water droplets — even on the glass cover placed on top of the bowl.

Innovation EasyClean Coating

EasyClean – the innovative dirt-repellent coating for sanitary ceramics, that makes cleaning your bathroom easier. EasyClean prevents dirt and limescale from sticking to the surface, keeping the ceramic cleaner for longer. Thanks to the non-stick effect, dried dirt residues can be removed more easily, greatly reducing the need for chemical cleaning products.

- Scratch-resistant, durable surfaces — for long-lasting ceramic cleanliness
- Perfectly hygienic
- Saves time when cleaning the bathroom
- High quality requirements for the material

90% less

- cleaning time
- cleaning agents
- water consumption

Additional services

The AM.PM client service center is located in Oberhausen, Germany. Experienced international specialists there can answer any question online, consult you in different languages and give you information for clients in different countries.

We follow the next principles — to provoke desire, to surprise and to amaze our customers. This is why AM.PM was created, and that's what makes our bathrooms so special.

Contact information

We care about what you think and want to know what you have to say. Your reaction to our products and services is important to us. For further information about AM.PM and our products, please call:
