

North Star Fountain Aerator

Add an elegant, trumpet-shaped water feature to any pond or lake along with powerful aeration, debris reduction and reliable algae control.

The North Star Fountain Aerator is the proven solution for keeping your water sparkling clean while simultaneously providing beauty and healthy aeration.

The powerful North Star moves an impressive 600 gallons of water per minute, creating a strong surface current to help oxygenate water and eliminate algae and debris. Perfect for commercial, residential, and municipal applications, the North Star not only shines in the daytime landscape, but can also star after dark with a lighting option. You can order and add it now or at a later time.

No need for winterizing, simply leave your aerator or fountain in the water and turn the power supply off. Once the water thaws in the spring, re-establish power to the unit and you're good to go. All of the components will withstand sub-zero conditions without damage.

The Scott Aerator Company's focus is to supply it's clients with the highest quality, value-based American made water aerators and pond fountains on the market. A family owned business for over 50 years offering:

- Industry leading, 5 year motor warranty
- Most environmentally friendly system on the market
- Oil free, stainless steel submersible motor
- No Maintenance
- Designed for 24-hour continuous operation
- Salt water approved
- Light sets available
- No need to remove in ice conditions – all components are engineered to withstand sub-zero conditions without damage.

**The Scott Aerator
Awesome Warranty**

All standard Scott Aerator products are unconditionally warranted for five years against motor defects in materials or workmanship, under normal operating conditions. All other product components are warranted for one year from date of purchase. Scott Aerator will repair or replace failed parts under warranty when the defective unit is returned to the factory, shipping prepaid, and factory inspection establishes that the part was defective. The unit must be returned to the factory prior to shipment of replacement parts. All parts replaced under this warranty will be returned with shipping prepaid. Scott Aerator will not be liable for consequential damage nor for any costs associated with removal or attempts to repair components in the field.
