

Showcase The Beauty of Your Fountain With Our New Color Changing LED Lighting

Our color changing LED lighting kit offers full control over your fountain lights. A long range remote allows you to change your settings with ease from up to 1000 feet away. The fully programmable timer lets you set up to 16 on/off settings. Solid color lighting is available in red, white, blue and green, with additional colors available in the rotating patterns.

These 2 or 4 light kits install in minutes to your new or existing fountain and feature stainless-steel fixtures and brackets. Long-lasting. Energy-efficient. Simple to use. These LED lights will create a stunning focal point to your outdoor paradise.

2 or 4 light kits include:

- Stainless steel lights and arm brackets
- Power cables
- Programmable Timer
- 12 Volt
- 9 Watts Per Fixture
- 1230 Lumens

Showcase The Beauty of Your Fountain With Our New Residential LED Lighting

Our residential LED lighting offers a stunning nighttime display at a great price. There are several distinctions from our commercial LED lighting. First is in the transformer, which is a non-submersible unit engineered with a durable all weather housing. In addition, the transformer on this style has a built in photo eye that automatically turns the lights on at dusk, and a timer that runs for 4, 6, or 8 hours before turning the lights off.

These 2 or 4 light kits install in minutes to your new or existing fountain and feature stainless-steel fixtures and brackets. Long-lasting. Energy-efficient. Simple to use. These LED lights will create a stunning focal point to your outdoor paradise.

2 or 4 light kits include:

- Stainless steel lights and arm brackets
- Power cables
- All-weather transformer
- Durable exterior grade power supply
- 12 Volt
- 9 Watts Per Fixture
- 1230 Lumens
