

Triad fountain

Includes 3 interchangeable nozzles

Add a spectacular focal point to your outdoor paradise while vastly improving the health of your pond. Three individually distinct brass nozzles are included with this water feature, and all can be easily changed in minutes without tools!

Gusher

Skyward

Cambridge

The **Triad** gives you the choice between the more traditional geyser style of the “Gusher” nozzle, or more vibrant patterns such as the “Skyward” and “Cambridge” nozzles. All three will provide a dynamic, aesthetically pleasing addition to your pond or lake while helping to maintain water clarity, oxygen levels, and overall promoting a healthy aquatic environment.

Features

- Three different nozzles included: Gusher, Skyward and Cambridge

Nozzles

- Gusher provides an adjustable vertical column spraying up to 35' h
- Skyward features a cone shaped pattern up to 30' high and 40' wide
- Cambridge offers a multi-tiered classic spray pattern up to 30' h x 40w
- Stainless steel, oil-free, submersible motor and pump provide the most environmentally friendly fountain on the market

Motor

- 1 HP, 60 Hz, single phase, 8.2 amps, 1,210 watts, 230 volt
- Designed for use in fresh or salt water
- 75 gallons of water per minute flow rate
- Electric cable provided is 100 feet in length, 12-gauge, submersible
- Approved for use in salt water.
- Designed for 24-hour-per-day operation.
- Manufactured in the USA

Options available

- Three phase motors
- Larger motor sizes
- Electric cable can be ordered in greater lengths
- LED or traditional lighting sets available at purchase, can also be added later

Required for Installation

- Two 25-pound weights or concrete blocks and nylon ropes for anchoring (*not included*)
- GFCI equipped power source
- 34-inch minimum pond depth

Worry-free winterizing

The Scott Aerator Company has engineered all of its water features to eliminate the need for costly, time-consuming winterizing products and procedures. Simply leave your fountain in the water, turn off its power supply, and forget about it all winter. Once the water thaws in the spring, re-establish power to the unit and you're good to go. All components will withstand sub-zero conditions without damage.

The Scott Aerator Awesome Warranty

All Scott Aerator motors are unconditionally warranted for **five years** against motor defects in materials or workmanship, under normal operating conditions. All other product components are warranted for one year from date of purchase. Scott Aerator will repair or replace failed parts under warranty when the defective unit is returned to the factory, shipping prepaid, and factory inspection establishes that the part was defective. The unit must be returned to the factory prior to shipment of replacement parts. All parts replaced under this warranty will be returned with shipping prepaid. Scott Aerator will not be liable for consequential damage nor for any costs associated with removal or attempts to repair components in the field.
