

## Features and Benefits

Wide spreading display creates a broad feature that beautifully fills any lake scene. The display head produces heavier floral sidejets that arch up and out, making it a highly visible pattern both daylight and when lit at night.

HP	Center HT	# Side HT	# Side Jets	Diameter	1 Phase (V)	3 Phase (V)		
2	18'	8'	20	20'	230	208	230	460
3	23'	10'	20	25'	230	208	230	460
5	26'	12'	20	30'	230	208	230	460
7.5	30'	15'	20	35'	230	208	230	460
10	35'	17'	20	40'	230	208	230	460
15	40'	20'	20	45'	230	208	230	460

### NOZZLES

- ◆ Precision machined brass/bronze or stainless steel nozzles

### PUMPS/MOTORS

- ◆ High performance turbine pump/motor assembly
- ◆ Stainless steel construction
- ◆ Water cooled: no oils, seals or o-rings to replace
- ◆ **4 year warranty**

### FLOTATION

- ◆ Rotocast polypropylene with UV inhibitors for long life
- ◆ Individual leveling compartments for exact adjustments
- ◆ **4 year warranty**

### CONTROL PANEL

- ◆ UL listed per National Electrical Code
- ◆ Weatherproof steel enclosures

### SUBMERSIBLE LIGHT FIXTURES

- ◆ Energy efficient LED, 140 lumens/watt
- ◆ Stainless steel housing
- ◆ **2 year warranty**

### CABLES

- ◆ STW-A rated
- ◆ **4 year warranty**
