

RIDDEX® Plus INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS:

WARNING- WHEN USING APPLIANCES, BASIC PRECAUTIONS SHOULD ALWAYS BE FOLLOWED, INCLUDING THE FOLLOWING:

- Read all instructions before using the appliance.
- To reduce the risk of injury, close supervision is necessary when an appliance is used near children.
- Do not contact moving parts.
- Do not use it outdoors.
- Never open the product. There are not any serviceable parts inside.
- Do NOT expose product to dripping or splashing water at any time.
- To reduce the risk of electrical shock, do NOT put the Riddex product in water or other liquid.
- Do NOT store the product where it can fall or be pulled into a tub or sink.
- Save these instructions

How does it work?

Just plug the unit into an outlet and this product starts working immediately.

- Green Light – indicates product is working and this should always remain solid green.
- Red Light – The red light - will flash for 3 minutes and then turn off for 3 minutes, the cycle will continuously repeat if the product is plugged in.
- Blue Light – push the button on top to turn on/off the night light.

How many will I need?

It is recommended to use one unit for approximately 1000 sq. ft. An additional unit is recommended if square footage exceeds 1000 or for additional floors in a dwelling.

How quickly will I see results?

The unit has its maximum effectiveness within the first seven days. Glue boards and/or traps may be used to help during the initial clean-up period. After the results have been obtained, do not unplug - the cost for continual use is minimal.

Installation

Plug one into the outlet in a central location. If two units are required, plug into outlet at opposite ends of home. The light will flash indicating the unit is working properly.

SUGGESTIONS FOR BEST RESULTS

1. Take particular care not to leave doors, windows, basement, or garage doors open as new rodents wonder briefly before they are affected by the unit.
2. Take particular care not to leave human, animal or pet food supplies in open areas, which can attract new rodents before they are affected by the unit.
3. Take particular care not to carry in new rodents when transferring food supplies, grains, animal feed, from outside supply areas into the area where the unit is in use.
4. During the first clean-up period, an increase in activity may be noticed.
5. This unit will not affect household pets, computers, or appliances (except hamsters, gerbils, rabbits or other rodent pets).

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept interference received, including interference that may cause undesired operation.

SAVE THESE INSTRUCTIONS.

Warning:

The product should not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed near the product.

The plug is used as the disconnect device, the disconnect device shall remain readily operable.

- A minimum distance of 6 inches should be left around the device for sufficient ventilation.
- Ventilation should not be impeded by covering the device with items or furniture, such as newspapers, tablecloths, curtains, couches, chairs, etc.
- No open flame sources, such as lighted candles, should be placed near the device.
- The plug is used as the disconnect device, the disconnect device shall remain readily operable.

In case of lighting strike or power surge Riddex® Power Plus will shut off to avoid any unit malfunction.
