

# Riddex® X Pest Repeller

## Insect & Rodent Control Unit

### IMPORTANT SAFETY INSTRUCTIONS

**WARNING** – WHEN USING ELECTRIC APPLIANCE, BASIC PRECAUTIONS SHOULD ALWAYS BE FOLLOWED, INCLUDING THE FOLLOWING:

- Read all the instructions before using the appliance.
- To reduce the risk of injury, close supervision is necessary when an appliance is used near children.
- Do not contact moving parts.
- Only use attachments recommended or sold by the manufacturer.
- To reduce the risk of electrical shock, do not put appliance in water or other liquid. Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not use outdoors.

### SAVE THESE INSTRUCTIONS

Rating: AC120V 50/60Hz 0.35A Max. 2 Port USB Output: DC5V, 1A Max. Total Rating: 8.5A, Receptacle Rating: 8A

Warning: WHEN USING APPLIANCES, BASIC PRECAUTIONS SHOULD ALWAYS BE FOLLOWED.

INCLUDING THE FOLLOWING:

- Read all instructions before using the appliance.
- To reduce the risk of injury, close supervision is necessary when an appliance is used near children.
- Do not contact moving parts.
- Do not use outdoors.

This unit is “The Environmental Alternative For Safer Pest Control.” Want to reduce the use of hazardous chemical (insecticide and pesticide) in your everyday life, around children, and food products? A revolutionary invention has produced an innovative breakthrough in rodent control. A U.S. patent has been issued for this principle that safely and uniquely uses the wiring in a home, restaurant, office, or any structure with electric wiring within the walls. Not an Ultra-Sonic Product.

#### How does it work?

Just plug the unit into an outlet and this technology starts working by altering the normal field around your wiring, creating an environment that aids in the control of rodents.

Green Light – indicated Riddex® X is on and should remain a solid green light at all times

Red Light – indicated if the cycle is on or off. The red light will blink for 3 minutes and turn off for 3 minutes. The cycle will continuously repeat as long as Riddex® X is plugged in.

#### How many Riddex® X will I need?

Manufacturer suggests using one Riddex® X for approximately 1000 sq. ft or one unit per floor of home. An additional unit is recommended if square footage exceeds 1000 or for second floor.

#### How quickly will I see results?

The Riddex® X has its maximum effectiveness within the first seven days. Glue boards and/or traps may be used to help during the initial clean-up period. After results have been obtained, do not unplug- the cost for continual use is minimal.

**Installation:**

Plug one into outlet in central location. If two units are required, plug into outlets at opposite ends of home. The green light indicate the unit is working properly.

**SUGGESTIONS FOR BEST RESULTS**

1. Take special care not to leave doors, windows, basement or garage doors open as new rodents wander briefly before they are affected by the unit.
2. Take special care not to leave human, animal or pet food supplies in open areas which can attract new rodents before they are affected by the unit.
3. Take special care not to carry new rodents when transferring food supplies, grains, animal feed, etc. from outside supply areas into the home where the unit is in use.
4. During the initial clean up period, an increase in activity may be noticed.
5. The unit will not affect household pets, computers or appliances (except hamsters, gerbils, rabbits or other rodent type pets).

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference and (2) this device must accept interference received, including interference that may cause undesired operation.

**WARNING: INSTRUCTIONS PERTAINING TO A RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS**

The devices shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed near the device or devices.

- A minimum distance of 6 inches should be left around the device for sufficient ventilation
- Ventilation should not be impeded by covering the device with items or furniture, such as newspapers, tablecloths, curtains, couches, chairs, etc.;
- No open flame sources, such as lighted candles, should be placed near the device;
- The plug is used as the disconnect device, the disconnect device shall remain readily operable
- A minimum distance of six inches should be left around each Riddex® X with items or furniture, such as newspapers, tablecloths, curtains, etc.
- No open flame source, such as lighted candles, should be near the device.

Riddex® X is intended for household use only.

For added convenience, the Riddex® X is installed with an auxiliary outlet on the side of the unit and two USB's charging outlets on the other side.

The Riddex® X also has a light blue night light which can be turned off and on by pressing the large white button near the top of the unit.

Riddex® X has no user controls. If the unit is plugged in it is operating. Do not tamper with the unit. There are no serviceable parts.

The Riddex® X USB's will charge any device with a USB cable at two times the speed or a standard charge. THREE-PRONGED APPLIANCES SUCH AS POWER TOOLS, MICROWAVES OR LARGER APPLIANCES SHOULD NOT BE USED.

In case of lightning strike or power surge Riddex® X will shut off to avoid any unit malfunction.
