LDSolution

LDS is a leading manufacturer of industrial dispensing equipment. We specialize in providing precision fluid dispensing components for a wide range of industries, including electronics, medical devices, and consumer goods. Our products and solutions are known for high accuracy, consistency, and reliability, making them a trusted partner for companies looking to streamline their manufacturing processes. With a commitment to innovation and customer satisfaction, LDS continues to be a leading provider of fluid dispensing technology.

10CC barrel syringes:

The 10cc LDSolution syringe barrel is a high-quality dispensing tool that offers reliable and consistent performance. This syringe barrel is designed to hold up to 10cc of fluid, making it ideal for a wide range of applications, including the precise dispensing of adhesives, sealants, and lubricants. The barrel is made of high-density polypropylene, which ensures its durability and resistance to harsh chemicals.

The 10cc syringe barrel is compatible with a range of needles and tips, allowing for precision dispensing of fluids in a variety of applications. The tip lock design ensures a secure and leak-free connection between the barrel and the dispensing tip. Additionally, the barrel is designed to minimize fluid waste, which can save time and money in the long run.

Overall, the 10cc syringe barrel from LDSolution is a reliable and versatile dispensing tool that can be used for a wide range of applications. Its high-quality construction and compatibility with a range of tips and needles make it a valuable addition to any dispensing operation.

LDSolution is proud to offer barrels in 10CC, 30CC and 55CC sizes in 3 different version:

- Clear
- Opaque
- Black
