

Product Overview:

The AltitudeCraft 12" Framing Stud Layout Tool is designed to increase framing speeds by up to 50%, ensuring perfect framing every time. It's easy to use, durable, and versatile, making it an essential tool for carpenters and DIY enthusiasts.

Package Contents:

AltitudeCraft 12" Framing Stud Layout Tool

Safety Warning:

Always adhere to basic safety regulations when using this tool. Avoid using it in wet environments to prevent slipping or electric shock. When working at heights, always ensure your work area is safe and prevent the tool from falling and hitting people.

Maintenance and Cleaning Guide:

1. Clean the tool with a dry cloth after each use.
2. Clean the tool with mild soap and water. Avoid using abrasive cleaners or hard brushes as this may damage the surface of the tool. After cleaning, ensure the tool is completely dry to prevent rusting.
3. Store in a dry place to prevent rust.
4. Regularly check the tool for any signs of wear or damage.

Usage Instruction:

Step 1: Position the framing tool on the top plate and insert the frames into the tool. At the same time, use another framing tool at the opposite end of the frame to adjust the spacing between the frames, ensuring accuracy and alignment.

Step 2: Secure the frames to the top plate using framing nails.

Remember, the framing tool serves as a jig for nailing the frame to the top plate.
