

Care and Maintenance

This fire pit is a quality built product and is made to last for many years. The frame structure of this unit is made of powder-coated steel extrusion and under normal use, should resist rusting. Should rusting however, occur, we suggest using a steel brush on the affected area followed by a spray coating of a popular anti-rust paint.

Assembly Instructions

Estimated Assembly Time: 20 Minutes

DO NOT over tighten hardware!

Step 1 Connect Handle(A) and Handle(B) with Handle Connect Pole(C). (View Fig 1)

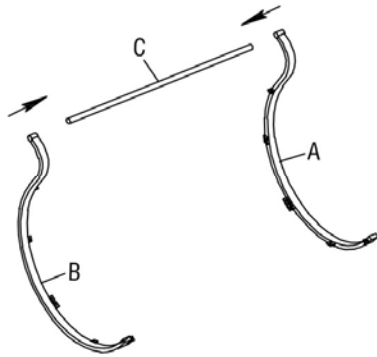

FIG1

Step 2 Connect the two Mesh boards(D) with the Handles by Bolts(J). (View Fig 2)
