Detergent proof

Easy to use.

Optically perfect clear deep wet-look shine

Contains no adulterating colours or perfumes.

Non-grainy paste wax.

Contents:

The 250ml tin comes with one application pad and one large microfiber buffing cloth.

Product Function:

Finis Wax is a superior last stage treatment for the protection of highly finished automobile paint systems.

The high grade T1 carnauba wax is used as the backbone to provide a deep rich gloss, whilst unlike other automotive waxes excellent gloss, ease of application and buff ability are provided by other gloss enhancing molecules.

- **.Finis Wax is not an abrasive polish. If your paintwork is faded, feels rough or has not been polished for a long period it will be necessary to use an abrasive polish and / or paint clay before application. Once prepared in this way regular application of Finish Wax will maintain a high gloss finish without need for further use of abrasive polishes.**
- **Work on sanded cool panels. Using the sponge applicator provided apply in *light* circular motions *extremely sparingly* and allow to dull for approximately 5-10 minutes. Buff to a high shine using the blue micro fibre cloth provided (250ml only) - turn frequently. Please note Finis Wax is provides a hard wax film unadulterated by plasticizers that reduce detergent resistance, application of excess wax will result in dusting during buffing, this is easily eliminated by reducing the amount applied.**
- **Both applicator pad and micro fibre cloth can be washed for re-use. Do not use fabric conditioner. Applicator pad should be stored away from direct sunlight.**

How to Use:

- **Thoroughly wash vehicle with hot soapy water, only use salt-free automotive shampoos. Do not use wash and wax products Dry vehicle using chamois leather, or synthetic equivalent.**
