## **ARTISTS STATEMENT**

“I make visual impressions of our world through stone, metals, resins, and gemstones. I have always been fascinated by the creative process, and never tire of exploring new combinations of art elements, art principles and materials in creating a new form for my works of Art! Through this process I learn more about myself and the world I live in. The creative process continually challenges whom I am and how I do things, creating, a commitment to quality craftsmanship and design exploration. When I can breathe a vision, into materials, and it takes on a life of its own; this is what being an Artists is all about for me!
