

## **BRACELET SIZE GUIDE**

## **METHOD 1: MEASURING WITH A PAPER SIZER**

- 1. Print out this guide on a A4 paper, 100% to scale.
- 2. Check print size using a credit card.

If the width of a credit card (85.6mm) fits in this outline, your print scale is correct

- 3. Cut out the paper sizer with care.
- 4. Place your paper sizer around the wrist. To ensure a comfortable bracelet fit, we recommend measuring the thickest part of the wrist, usually the wrist joint.

5. The number indicated by the arrows is the wrist size. We recommend adding more centimeter for a loose fit.

## **METHOD 2: MEASURING WITH YOUR OWN**

- Using a length of string or ribbon, wrap it around the base of your wrist.
  To ensure a comfortable bracelet fit, we recommend measuring the thickest part of the wrist, usually the wrist joint.
- With a pen, mark the point on the string where the end meets.Measure the string in cm or inches with a ruler.
- 3. Some people prefer to wear thier bracelet tigher around their wrist, whilst others prefer it looser and nearer the back of their hand . We recommend to add more centimeter for a loose fit.
