

METHOD 1: USING A PLASTIC RING SIZER

- 1. Get your free ring sizer from https://www.takajewellery.com.sg/blogs/guides/ring-size-guide
- 2. Form a circle with the ends of the sizer and push the end of the sizer through the buckle.
 - *Measure your finger in the middle of the day for accurate measurements.
- 3. Put the sizer onto the finger you prefer and adjust until it fits perfectly. Make sure the sizer is not too tight until it stresses the knuckles nor too loose till when you tilt your hand down the ring slips right off.
- 4. For precise measurements, please insert and remove the ring sizer twice to achieve the perfect fit.
- 5. Your ring size is indicated by the number pointed at by the arrow.

METHOD 2: USING A RING YOU OWN

- 1. Print out this guide on a A4 paper, 100% to scale.
- 2. Check print size using a credit card.

If the width of a credit card (85.6mm) fits in this outline, your print scale is correct

3. Place the ring you have on the shaded circles on the right of this page.

4. Match the inner ring to the circumference of the shaded circles.

5. The size that fits into your ring on hand, will be your estimated ring size. If your ring falls between 2 circles order the bigger size.

| Ring Size | Inner Ring Diameter | Circumference Of Your Finger |
|-----------|---------------------|------------------------------|
| 5 | 13.8 | 43.3 |
| 6 | 14.1 | 44.3 |
| 7 | 14.5 | 45.5 |
| 8 | 14.8 | 46.5 |
| 9 | 15.2 | 47.7 |
| 10 | 15.5 | 48.7 |
| 11 | 15.9 | 49.9 |
| 12 | 16.2 | 50.9 |
| 13 | 16.6 | 52.1 |
| 14 | 16.9 | 53.1 |
| 15 | 17.3 | 54.3 |
| 16 | 17.7 | 55.6 |
| 17 | 18.0 | 56.5 |
| 18 | 18.3 | 57.5 |
| 19 | 18.7 | 58.7 |
| 20 | 19.0 | 59.7 |
| 21 | 19.4 | 60.9 |
| 22 | 19.7 | 61.9 |
| 23 | 20.1 | 63.1 |
| 24 | 20.4 | 64.1 |
| 25 | 20.8 | 65.3 |
| 26 | 21.1 | 66.3 |
| 27 | 21.5 | 67.5 |
| 28 | 21.8 | 68.5 |
| 29 | 22.2 | 69.7 |
| 30 | 22.5 | 70.7 |
