**Subject:** RE: Adding ROBERT DENNIS on Patent

Please forward this message to Dr. Dennis:

Dr. Dennis's name was added to the list of inventors for USPN 6,485,963 (NASA reference MSC 22633-1). Unfortunately, the way this process works (i.e., adding an inventor after a patent has issued) is that a certificate of correction is attached to the end of the patent. The United States Patent and Trademark Office's patent system does not electronically display an added inventor's name when the name was added after the patent issued. The following certificate of correction can be found at the end of the '963 patent.

UNITED STATES PATENT AND TRADEMARK OFFICE  
**CERTIFICATE OF CORRECTION**
