5 FIRE-FIGHTING MEASURES

SDS (Safety Data Sheet)

Suitable (and unsuitable) extinguishing media:	May be combustible at high temperature. Use appropriate media (water fog or spray, foam, dry powder, carbon dioxide (CO ₂)) for adjacent fire. Do not use direct water jet.
Special protective equipment & precautions for firefighters:	Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots.
Flash Points:	>201°F
Specific hazards arising from the chemical:	Hazardous combustion products: oxides of carbon and sulfur. See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Ensure adequate ventilation. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Avoid liquid release into sewers/public water. Notify environmental authorities in case of large leaks.
Methods and material for containment and cleaning up:	Soak up with an absorbent material. In case of spillage, absorb with inert material and dispose of in accordance with applicable regulations.

7 HANDLING & STORAGE

Precautions for safe handling:	Normal precautions should be observed as for handling all chemicals. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.
Conditions for safe storage, incl. any incompatibilities:	Store in original sealed containers in cool, dry well-ventilated area. Keep away from heat and incompatible materials (see section 10 for incompatibilities).
