Triangle Santa Directions

Each child needs the following:

Body: 12 X 18" red paper: Pre-cut into large red triangle.

Boots: 6 x 4" black paper: Kids trace pattern with a white crayon; see scan of tracer.

Belt: 1.5 x 9" black paper: Kids glue onto body and trim off extra paper.

Buckle: 1 x 1" yellow: Pre-cut, glue onto center of belt.

Hat: 1.5 x 9" white: Pre-cut; kids glue onto triangle about an inch down from top.

Beard: 7 x 7" white: Kids trace pattern; see scan of tracer.

Cotton balls (three per child minimum)

Directions:

Pre-cut large red triangles and other pieces of paper. The children should:

1. Glue the white strip about one inch down from the top of the triangle, forming the hat.

2. Glue a cotton ball at the top of the triangle to form a hat.

3. Draw eyes below the hat with a black crayon.

4. Trace the beard onto the white paper, and cut out.

5. Draw a smile onto the beard.

6. Glue the black belt onto the middle of the triangle, and trim off the extra.

7. Glue the yellow square onto the belt to form the buckle.

8. Trace the boots onto the black paper.

Cut out, and glue onto the back of the body.

9. Pull cotton balls apart and glue onto the bottom of the body to form the fur trim.

I recently added arms with a 1.5 x 9 inch piece of red paper, and a white circle for the hands. The kids like it better with hands.

Santa's Boots (Actual Size)

The sleigh was made out of a piece of red butcher paper. I drew it free hand and then colored it in with a thick black marker, and then laminated it for durability. I bought some cheap ribbon and stapled it onto the flying reindeer for the harnesses and reins.
