

HeidiSongs Online Video Streaming

www.heidisongs.tv

What is HeidiSongs Streaming?

HeidiSongs Streaming offers access to our music videos online, available as a month to month or yearly subscription option through our website. Our educational streaming service includes over 700 HeidiSongs music videos, plus more than 300 music videos from our creative songwriting friends! Don't miss great music from EduTunes with Miss Jenny, Dr. Anthony "MiSTER B" Broughton, Miss Molly Songs, Deedee Wills, Sharie Sloane, Koo Koo, Danny Go!, Crafts with Miss Kim, Jam Cats, and Job Jams.

Do you want to use a School or District Purchase Order?

We accept school and district purchase orders, payments from PTO/PTA, school credit cards, and most other grants! Pricing is per teacher for each subscription or rental, and each teacher wanting access will get their own subscription and account. Please include each teacher's first and last name, plus email address, on the order so we can set up an account and access for each teacher. We'll send each teacher an invite email with their login, password, and access information. Access end date is listed in the email sent out. If you prefer to pay with a credit card, please email us for a link to pay online.

Can multiple teachers use the same login/subscription to access the online videos?

No, access is for one (single) classroom. Our pricing is based per teacher and each teacher wanting access to the online videos will need their own login and account. Multiple subscriptions can be purchased on the purchase order, and each teacher will get each their own account.

Do you offer a school or district license?

Yes! Our prices are based per teacher getting access. We offer discounted rates when there are five or more teachers getting access, and when there are ten or more teachers getting access. Pricing is listed below, or email us at quotes@heidisongs.com for a quote!

Streaming - FAQ's

www.heidisongs.tv

1. **Custom Video Playlist** - You can easily create and play a custom video playlist within any song collection! For instance, when using "Sight Words - Alphabetical Order", check the **"Show Playlist Options"** box under any video being played and you'll see the song list appear (See image below). Check the box next to all the songs you'd like to add, then click **"Save Playlist"**. You can also click **"Clear Playlist"** to start over.

The screenshot shows the 'Show Playlist Options' dropdown menu on the left, which is highlighted with a red box. The menu contains a list of song categories with checkboxes: 'A word Song', 'About Song', 'Again Song' (checked), 'All Song', 'Am Song', 'An Song', 'And Song' (checked), 'Are Song', 'Around Song', and 'As Song' (checked). Below the menu are two buttons: 'Save Playlist' (green) and 'Clear Playlist' (red), both also highlighted with red boxes. To the right, the video player interface is shown with a red arrow pointing to the 'Show Playlist Options' button. The video player displays a grid of video thumbnails for 'Again Song' and 'All Song'. Red text annotations provide instructions: 'Click to create Custom Video Playlist' with a red arrow pointing to the 'Show Playlist Options' button, and 'Save Video Playlist or Clear Video Playlist to start over' with a red arrow pointing to the 'Save Playlist' and 'Clear Playlist' buttons. A checkbox labeled '- Select Songs for Video Playlist' is also checked.

Once your playlist is saved, it will show the **"Song Name"**, a green **"Play"** icon, **"Move-Up"** and **"Move-Down"** icons, and a red **"Delete"** icon. Move your songs up or down on the list as you like and these selections will remain in place every time you return to that set of songs! Then click the **"Play"** icon on your first movie, and the list will automatically play thru!

The screenshot shows the 'Saved Video Playlist' interface. At the top, there is a 'Show Playlist Options' dropdown menu. Below it, a 'Repeat' checkbox is visible. The main part of the interface is a list of three songs: '1. Again Song', '2. And Song', and '3. As Song'. Each song entry has a green play button, a green up arrow, a green down arrow, and a red X icon. A red box highlights the first three rows of the playlist. To the right, red text annotations provide instructions: 'Saved Video Playlist' followed by '1) Click green arrow for playback.', '2) ^ v - Moves Song Up or Down the Playlist', and '3) X - Removes Song from Playlist'. A red arrow points from the second annotation to the up and down arrows of the second song entry.

2) Another useful feature is the **"Repeat"** checkbox, which lets you repeat any video as it plays until you uncheck or select another video.

FAQ - Continued

- 3) **"Autoplay"** - This feature is useful if you'd like your videos to move from one song to the next automatically thru the whole song collection. This feature may not work correctly when you're using our custom Video Playlist feature!
- 4) **"Add to Favorites"** - This feature is not part of our Custom Playlist, but will add a new section to your Home/Catalog page, similar to the "Continue Watching" feature. These Favorites do not auto-play like a playlist within a collection does. They are for easier access to quickly get to a song or collection.
- 5) **"Share"** - There is a "Share" button, but it does not share videos or embedded links like you might find on YouTube or Vimeo! This button is a feature of our streaming host and does not actually work how any of us would like, but we are unable to turn it off or hide it! Currently, there is no way to share our videos without an active account on our HeidiSongs streaming platform. This is also the case if you are copying and pasting a URL link to Google Slides/Canvas/Seesaw or other teaching software, there is no way to share these videos without an active account. Instead, the URL link will open up our streaming site, prompting the user to log in.
- 4) **Playing Videos on your Television** - If you have an iPhone or an Apple computer, you can use AirPlay to stream videos to your TV. If you have a modern TV or an attached set-top box or player, you might even have a web browser option that will allow you to log into our streaming site directly!
- 5) **Compatibility issues** - Videos buffering, slow to load, or won't play? We occasionally hear of schools and school districts limiting or filtering general internet access, so be sure that check with your tech support to 'whitelist' our site at "<https://www.heidisongs.tv/>". Additionally, we have heard that some brands of Smart Boards have issues with their "touch compatible" software, so be sure to test all your board's features during your free trial.
- 6) **Don't see any emails from us?** If you are not seeing any emails from us, check your spam and junk folders in case the email ended up there. Sometimes school email addresses may have filters in place that block our emails from arriving in your inbox. We recommend adding heidisongs@no-reply.uscreen.io email address, along with support@heidisongs.com into your contact list, or searching under that email address for any missing emails. If you still don't see any emails from us, either give us a call at (909) 331-2090 or send us an email from a personal email address instead of a school email address so we can help you out.

If you have any questions or need help with anything, please email us at info@heidisongs.com, or call us M-F from 8:30-3:00 pm PST at 909-331-2090. If we miss you, leave a message and we'll call you back as soon as possible.
