

# Hidden CVC Word Puzzles Sampler Vol. 2

Thank you for downloading this HeidiSongs' Hidden CVC Word Puzzles Sampler, Vol. 2! These worksheets are designed to give children practice in reading these simple consonant-vowel-consonant (CVC) words. It also gives them practice in visual discrimination, to help them simply "see the differences" from one word to the other. To use, children just need to look for the designated target word in each section as indicated at the top of each page. Then they color those sections with the word the color indicated. Optional: have your students also color the rest of the sections with different words the color of their choice. The colored result is self checking; if they find and color the right word each time, the target word should appear! For an extra challenge, have your students write a sentence with that target word on the back of the worksheet if they finish early.

Once children understand how this type of worksheet is done, even non-readers will have no trouble with each worksheet, because the format is the same. Just have your students look at the target word in quotation marks. I also keep a color word chart on my wall so that children can refer to it, if they are unsure. Teaching your children the color word songs on Sing and Spell Vol. 2 or on the Colors and Shapes DVD will also help them identify the color words! Thank you for your purchase and support, and have fun! Heidi
