

# Leprechaun Sight Word Game

In order to play this game, duplicate the leprechaun pages with the leprechaun holding the blank cards. Then either write the words you want on his signs, or import the picture into your favorite word processing program and add the words using your computer.

Once the leprechauns are printed out and the words are written on their signs, cut out the pot of gold below. You may wish to laminate it to make it a bit sturdier, or at least cover it with clear packing tape to help it endure a bit longer!

To play, have the children hide their eyes. Then, just hide the pot of gold under any leprechaun's picture. The children all chant, "Leprechaun, leprechaun! Truth be told! Leprechaun, leprechaun! Where's your gold?" The children may then take turns naming the word that they think the pot of gold is hiding under, and lifting that word to check. The game ends when someone finds the pot of gold under his or her word of choice. Then play again.

Have Fun!  
Heidi
