- 4: Hang the mirror on the wall matching the screw's position. Figure 4.
- **5**: Measure the distance between two mounting holes. Figure 5.
- 6: Drill two leveled holes on the wall and insert anchors into drilled holes. Figure 6.

- 7: Fit the shelf onto the mirror matching the screw's position. Figure 7.
- 8: The installation is complete. Figure 8.

## **TROUBLESHOOTING**

# Problem:

Mirror is higher on one side than the other.

# Possible Cause:

- 1) Mounting screws are not level.
- 2) Hanging hardware on the mirror is not level.

#### **Corrective Action:**

- 1) Remove the mirror from the wall and re-check the screws; adjust as needed.
- 2) Measure the position of the hanging hardware on the back of the mirror and ensure that it is level, adjust as needed.
