

Bathroom Vanity Installation

Tools requested not in box

Step1. Unpackage the vanity and place the base by your plumbing to be able to install your faucet and drain. At this point you can level the cabinet with the leg levelers

Step2. Apply a bead of clear or white silicone sealant evenly along the top of the cabinet

Step3. Place the vanity top onto the cabinet . Firmly apply pressure to the vanity top sealing it to the cabinet

Step4. Apply silicone sealant evenly along the bottom of backs plash and wall

Step5. Finally place the bottom side of backs plash with sealant onto the vanity top and check the alignment of back splash

Adjustment of hinges
