FRESCO & CASCADE

Johnstons of Elgin's commitment to innovation and dedication to quality combine again this season with the launch of their new fabrics Fresco and Cascade. Drawing on centuries of expertise, they twist delicate Linen fibres around the best possible Lambswool to create textural, soft fabrics with a cool edge. Exceptional craftsmanship ensures these new designs are as beautiful and luxurious as Johnstons of Elgin's customers have come to expect.

The delicate pink shades of seashells and the muted green tones of a pebble are recreated in the alluring new Fresco fabric. Fresco's design looks at the Scottish coastline through a macro lens while the lustre and sheen of the Lambswool Linen blend elevate the aesthetic.

Cascade shows equal attention to detail with colours exclusive to us at Johnstons of Elgin that translate literally from wildlife, including Urchin, Petal and Robin's Egg.

Wool and Linen are often perceived as opposites, but as natural fibres, they are inherently temperature-regulating and suitable for almost any climate. Johnstons of Elgin's Lambswool Linen fabrics benefit from the versatility of their natural composition and offer longevity in addition to style.

Discover Fresco and Cascade at johnstonsofelgin.com.

ENDS

ABOUT

In the two centuries following its establishment in 1797, Johnstons of Elgin is one of the last few vertical mills in the UK still carrying out all the processes from raw cashmere and fine

woollen fibres right through to the finished product. Johnstons of Elgin's mills in Elgin and Hawick employ over 1000 people, including highly skilled textile craftsmen and women.
