Grossenbacher

ABOUT US

We are a down-to-earth, modern and internationally active Swiss company. With our strong team, we offer you versatile product solutions that are based in the world of dog and equestrian sports. Our great specialty lies in constant development and innovation, with the goal of always developing and manufacturing the best for your four-legged friends. Know-how, many years of experience, qualified employees and state-of-the-art working methods make us your reliable product partner „made for cool animals“. We take great pleasure in efficient and clean craftsmanship. We like to prove our traditional craftsmanship, which is reflected in our quality products, every day anew. Forward thinking, honesty and fairness towards our customers and clients are the most important prerequisites for us to have satisfied customers as a result of our work. In this catalog we would like to present you our extensive range of products from our own production, which we are constantly developing and expanding for our loyal customers year after year.

EXPANDER

	Art. No.
set (both)	562001
only gaiters	562002
expander only	562003

Here an expander can help:

- problems with the rear legs
- grinding with the rear feet, nails

How to attach it:

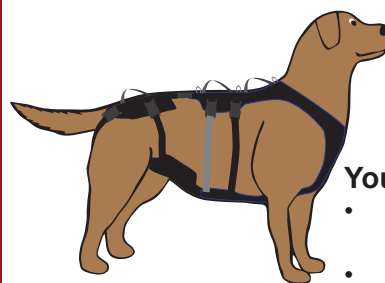

1. attach the gaiters to the rear legs

2. attach the carabiners to the second ring from the front

Settings:

The elastic band should be adjusted so that it is slightly taut when the dog is standing normally.

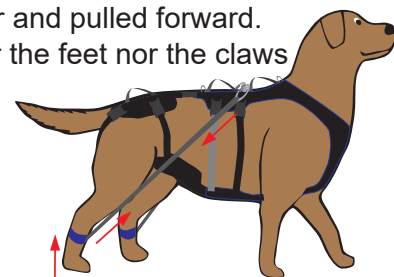

You need that:

- DFR/VARY Support or DFR/VARY Support X-Long
- one set of expander/ gaiters

Function:

When the dog walks and the leg is relieved, it is lifted by the expander and pulled forward. This means that neither the feet nor the claws drag on the ground. In addition, the legs are pulled slightly outwards so that the dog walks more stable.

DOG`S FUN RUN TRAVEL XTREME

young adult

sport everyday life
transportation in the car

- the safest way to transport your dog on a car seat
- for securing the dog in the car with the safety belt
- the dog can only slip minimally in the harness in the event of emergency braking
- very high tensile strength due to reinforced materials
- two belly straps
- aluminum buckles with 300 kg tearing force each

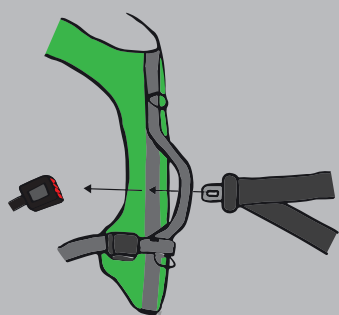

edge band: red, cherry red, bordeaux, luminous pink, rose, luminous orange, sunshine yellow, luminous green, dark green, olive, dark brown, beige, gray, black, navy blue, royal blue, turquoise, light blue, purple

fabric 5XS-3XL: black, dark gray, petrol, royal blue, purple, wine red, luminous orange, luminous yellow

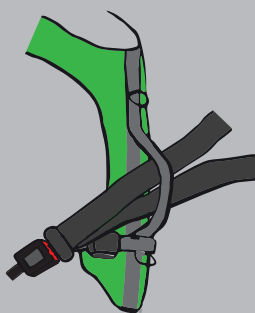

fabric 3XS-3XL: rose, beige, olive

belts: black, gray

HOW IT WORKS: DOG'S FUN RUN TRAVEL

1. loop the car seat belts through the hand loop of the safety harness

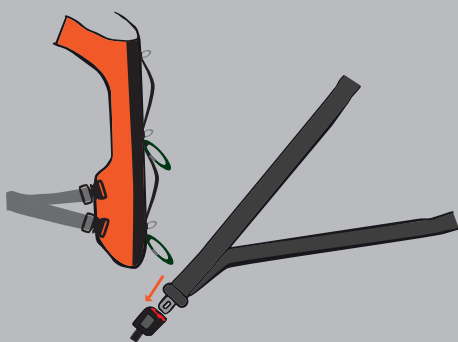

2. insert the buckle tongue into the buckle and ensure that it engages correctly

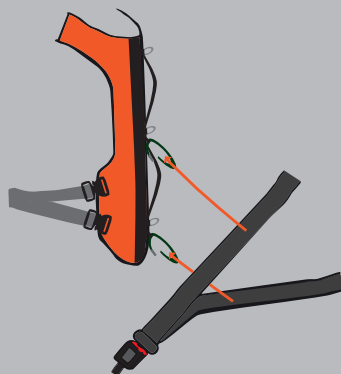

3. make sure that the seat belt is routed as short as possible

HOW IT WORKS: DOG'S FUN RUN TRAVEL XTREME

1. Loop the car seat belts through the hand loop of the safety harness.

2. Attach the two carabiners to the seat belt. The front carabiner is attached to the upper part of the seat belt and the rear carabiner to the lower part.

3. make sure that the seat belt is routed as short as possible.

NOT LIKE THAT:

Do not use extensions/adapters of any kind; we decline any liability for their use. In the event of an accident or emergency braking, such extensions will cause your dog to be thrown much further through the vehicle. In the worst case, this can lead to serious injuries or worse.

Imagine your seat belt is loose during emergency braking - that's how a dog with an extension feels.

extensions/adapters Let your dog fly much further through your vehicle

MUZZLE MEASURING

If your dog has to wear a muzzle, it should meet certain requirements: snapping or biting at people and other dogs should be prevented. The animal shouldn't be prevented from breathing, panting or drinking. At the same time, the muzzle should not injure the animal or prevent it from moving normally.

A muzzle circumference

Place the measuring tape loosely around the muzzle at the root of the nose, add 1-2 cm, the dog should be able to open its muzzle to pant.

B nose length

Measure from the tip of the nose to the eyes with the measuring tape, add 1-2 cm so that there are no pressure points on the nose.

made in Europe

5XS-XXL

without nose pad

POISON BAIT PROTECTION MUZZLE

young adult senior

**education
everyday life**

- light and soft for best wearing comfort

BIOTHANE THE MATERIAL

Biothane is the ideal material for adventurous two- and four-legged friends who like to be outside even in bad weather. Biothane consists of a polyester belt covered with a PVC coating. The pleasant surface provides a good grip in the hand and can be easily cleaned with a damp cloth, even from stubborn mud.

MILITARY ROPE THE MATERIAL

Our military leashes and long leashes are ideal for anyone looking for a rope leash that provides a comfortable grip. The rope is made of polyester and can be ordered round (with core) or flat (without core). The round version is slightly more stable and stiffer, while the flat version is very soft. The pattern makes the military leashes a real eye-catcher.

GREASED LEATHER THE MATERIAL

Our greased leather leashes are ideal for anyone looking for a very soft leather leash. A special greasing process makes the leather very soft and feels very comfortable in the hand. When using greased leather leashes, please note that they can easily stain hands and light-colored textiles.

ABOUT G-ROPE

Our G-ROPE dog toys are made out of hemp rope. Hemp rope is an ideal material for dog toys as it is non-toxic, very tear-resistant and sustainable to grow. In addition, dog toys made of hemp are moisture-resistant, which is important if they often play outdoors and near water. Our hemp toys are knotted and packaged in social institutions in Switzerland.

HEMP ROPES ARE

- non-toxic
- resistant to bacteria
- tooth cleaning / gentle on teeth
- very tear-resistant
- sustainable cultivation

ABOUT BAXTER TOYS

Baxter Toys is an originally Latvian brand that develops and manufactures sustainable and safe animal toys. In 2023, the brand was integrated into Beat Grossenbacher GmbH.

Our dog toys are made exclusively from non-toxic materials that are also used for the production of children's toys. All products are free from PVC, BPA and phthalates and are 100% recyclable. We manufacture our dog toys in Latvia under fair working conditions and pack them in social institutions in Switzerland.

ADVICE

Our BAXTERTOYS dog toys offer many possibilities to hide treats. This opens up completely new possibilities for playing with your four-legged friends.
