

## Assembly Diagram: J008 - Santa Sleigh Freestanding

Always dry fit first then use a suitable wood adhesive before painting the sleigh

**Step 1** - Lay out pieces as shown for dry fitting

**Step 2** - Once you are happy with the layout take the centre pieces and place them into the side panel. Gluing them into place one at a time

**Step 3** - Glue on the second side panel. The sleigh is complete.
