**HIGH QUALITY CUSTOMIZED PARTS
FOR HIGHER PERFORMANCE,
BETTER HEALTH AND MORE MOTIVATION**

Why us:

- *as freelancer we work independently of manufacturers and federations*
- *confidentiality granted between your team and your opponents*
 - *we like to create confidential agreements*
- *our 30 year experience goes into your individual and unique tuning parts*
- *all in one hand: Consult, Support, Build, Deliver, Connect with your boat*
 - *we proudly served at 5 Olympics in different positions*

What:

- *we manufacture personalized parts only and everything customized to you needs*
 - *work with all equipment and brands*
- *understand the relation between athlete and boat and optimise the connection from foot to hand to seat*

Also:

We can customize your para boat equipment !

What for:

- *100% connection to your equipment*

How it works:

- *try parts and feel the difference*
- *together, we, the coach and the athlete discuss the situation and determine a solution at our base or your base on request. We come to you !*
- *you only select the parts you need from our list*

Why should you:

- *less injury => more mileage*
- *comfort, health, performance, improvement*
- *higher motivation creates higher boatspeed*
- *use every muscle fibre for boatspeed rather than stabilising the boat, more angles at the front and finish and more force at the tip of the blade*
- *our products optimise the connection from athlete to the boat through excellent rigging options. Result is minimise health risks and improve the athlete*

PERFECTFIT-SEAT HEAT-UP

CUSTOMIZED PARTS FOR HIGHER PERFORMANCE,
BETTER HEALTH AND MORE MOTIVATION

MORE INFOS
WATCH BACKSIDE

Contact: info@sportservice-maul.com

PERFECTFIT-SEAT HEAT-UP

- *Only customized seat worldwide*
- *Individual seatplate customized to your weight and shell*
- *Different depth in sit bones between left and right in sweep rowing*
- *One seat to use for erg and boat*
- *Prevention of back and hamstring injury and reduction of sitting discomfort*
- *Heat up and row 40 minutes and your individual seat is alive ALL TIME*
- *Muscles involved are not stressed caused through a certain seat form while not fitting to your genetic structure*
- *Less pain and injury = more training and higher motivation*
- *Pressure distribution shows problems and differences between common seat versus this individual seat*
- *Your bones are running free from catch towards finish of the stroke*

It's simple to create your seat:

1. *Mount the plate to your underseat wheelsystem*
2. *Use an infrared lamp (300W) for 5 minutes until the structure is soft*
3. *Exercise for at least 40 minutes until the structure is cold*
