

## HEEL GROUNDERS WITH D-RING/Velcro SYSTEM

Item #: 16-H-DL ( Large Cup Blue Ribbon ) , 16-H-DS ( Standard Cup Blue Ribbon)

D-Ring fastening system provides allows flexibility and comfort during long ware and walking.

0.085" thick, 1.3/8" width, Durable laminated rubber sole. White Color inner layer is insulative rubber for bottom and back. Outer black colored layer is conductive rubber Blue grounding polyester ribbon tab, 22" long conductive nylon strands, two-sided reversible,

Per ANSI/ESD S20.20, use with ESD Floor as a grounding alternative to the wrist strap system for standing operations, All our Foot Grounders are a suitable ESD footwear component in your Flooring Footwear System as the primary grounding method ( $<3.5 \times 10^7$  ohms per ESD STM97.1), Integral Current-Limiting 1megohm Resistor for enhanced operator safety.

- Durable, reversible three-layer sole for increased product life
- Blue Multi-strand ground ribbon, 22" long
- 1 Mega ohm resistor
- Non-marking conductive rubber: bottom and back
- Elastic Velcro with D-ring Closure Style
