

saunum

A climate device for a sauna with
a wood-burning or electric heater

saunum base

Saunum Base solves the main problems of modern steam saunas that use classic wood-burning or electric heaters, such as temperature stratification, brief yet scorching steam, and low breathability. The unique Saunum Base sauna climate device, which complements the heater, fits in every sauna, ensuring a more even temperature with a softer and more airy steam. Himalayan salt balls and the unique features of the device make each sauna a relaxing spa experience.

A climate device for a sauna with a wood-burning or electric heater

saunum base

Saunum Base sauna climate devices enable a balanced sauna steam and are designed with a wide range of colours and installation options. Install the climate device on the wall, recessed into the wall or behind the wall. It is very easy to control the climate device with the touch switch.

Saunum Base offers a unique steam experience and a relaxing five-in-one home spa solution. With the Saunum device, the steam is softer and mixed with cooler air, which makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat. After the steam, no headache or sauna fatigue occurs. Enjoy a soft steam sauna, a sauna enriched with salt ions, a humid-steam rich sauna, a mild relaxation sauna, and an aroma sauna.

saunum base, saunum base short

A sauna climate device that could be installed on the wall or recessed into the wall

Included	Climate device, salt balls 7 pcs, turn switch
Sauna climate device	3 speed levels, vent adjustment
Colour selection of the housing	Anthracite grey
Colour selection of the glass	Black, patterned
LED colours	Only on patterned glass – blue, red, white
Power, supply voltage	60 W/75 W with LED lighting, 230 V – 50/60 Hz
Safety distance	Safety distance from the heater, according to the instructions for the particular heater. There must be no objects in front of the climate device and your feet, and other body parts, must not be kept closer than 50 cm.
Height of the device	Saunum Base 1752 mm / Saunum Base Short 1495 mm
Height of the device together with protective grille*	Saunum Base 2157 mm / Saunum Base Short 1900 mm
Depth and width of the device	226 x 437 mm
Weight of the device	30 kg
* The protective grille must be used if the device is recessed into the wall.	
Additionally required:	
Overcurrent protection	B1
Power cable, 1 phase	Adequate for the temperature range, min 3 x 0.5 mm ² In the case of an external switch, a minimum of 5 x 1 mm ² between the switch and the device.
If recessed into the wall	Protective grille
For the aroma sauna	Saunum sauna oil set
For easy control	Saunum touch switch (black or white)

saunum base touch switch

If you can't or don't want to use the rotary switch on the device, choose a Saunum Base touch-sensitive switch for the set. You can install it at a height that suits you, outside the steam room.

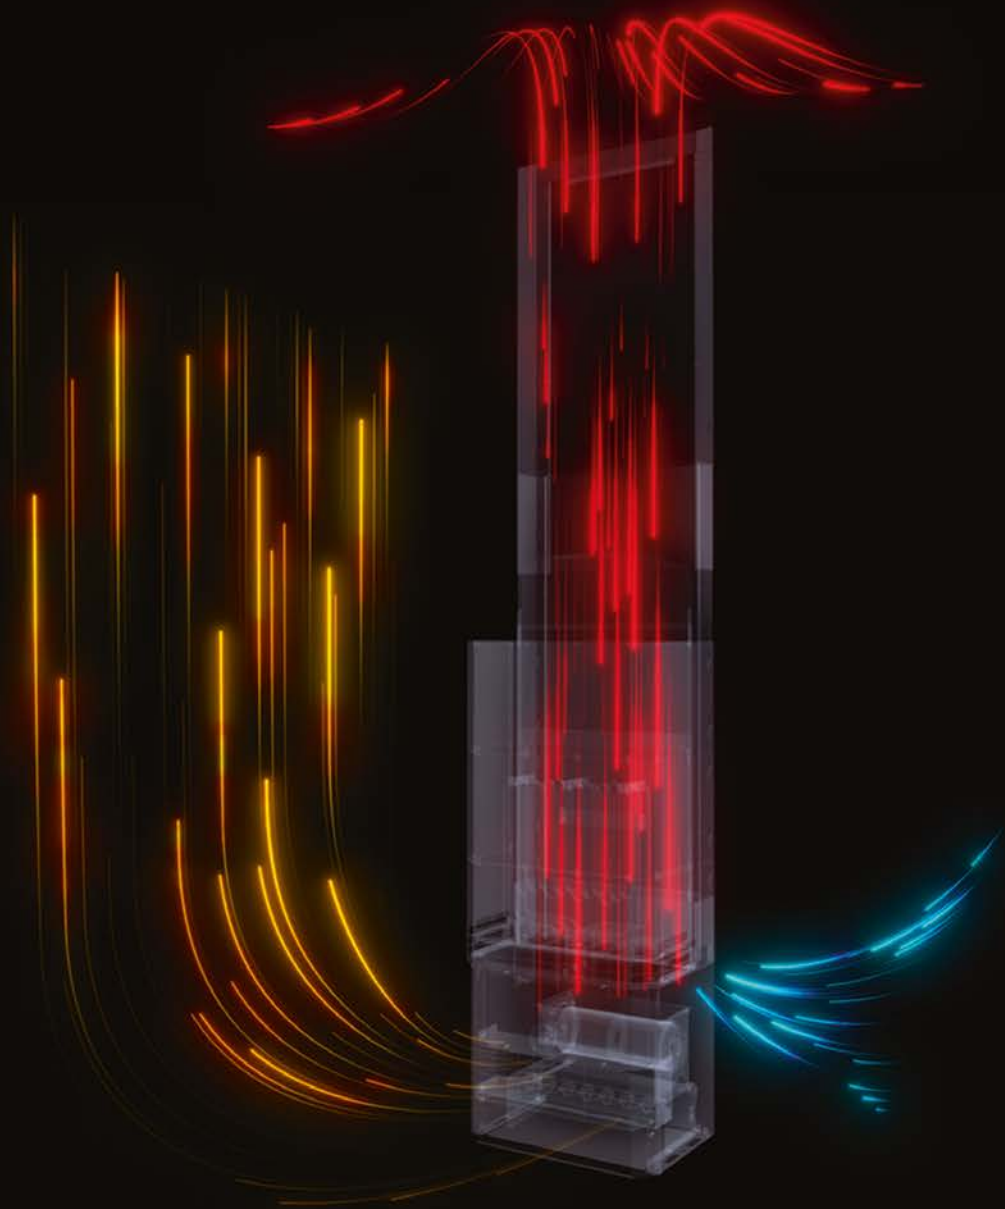

saunum base s

A sauna climate device that could be installed behind the wall

Included	Climate device, salt balls 7 pcs, touch switch (black or white), protective grille
Sauna climate device	3 speed levels, vent adjustment
Colour of the housing	Visible parts anthracite grey
Power, supply voltage	60 W, 230 V – 50/60 Hz
Safety distance	Safety distance from the heater, according to the instructions for the particular heater. There must be no objects in front of the climate device and your feet, and other body parts, must not be kept closer than 50 cm.
Height of the device	Adjustable 1690–2300 mm
Depth and width of the device	226 x 423 mm
Weight of the device	30 kg

Additionally required:

Overcurrent protection	B1
Power cable, 1 phase	Adequate for the temperature range, min 5 x 1 mm ²
For the aroma sauna	Saunum sauna oil set

Innovation

patented air-blending system

Saunum's patented air-blending system traps scorching steam that rises near the ceiling of the sauna and mixes it with cooler, more oxygen-rich air near the floor, equalizing the heat and steam throughout the sauna. This ensures a more even temperature of the steam, and the oxygen-enriched steam makes it easier to breathe. More water may be ladled onto the rocks of the heater to produce richer, more luxurious steam, resulting in more intense sweating.

Sensational experience

relaxing 5-in-1 spa solution

Try different settings and steam intensities to turn your sauna into a home spa.

Classic Nordic sauna

Temperature 60 °C–100 °C

The climate regulating system: speed level 1, the valve 25% open

Humid steam-rich sauna

Temperature 45 °C–60 °C

The climate regulating system: speed level 2 or 3, the valve 100% open

The lower the temperature, the more open the valve and the higher the speed of the climate regulating system, the more visible steam is generated when throwing water on a heater.

The mild, relaxing sauna

Temperature 40 °C–55 °C

The climate regulating system: speed level 1, the valve at least 25% open, if you prefer a softer, more humid sauna.

Sauna enriched with salt ions

Temperature 40 °C–100 °C

The climate regulating system: speed level 1, the valve 25% open

The salt spheres added to the climate device work at any temperature, if the sauna climate device is switched on.

Aroma sauna

Temperature 40 °C–90 °C

The climate regulating system: speed level 1, the valve 25% open

Replace one of the salt spheres with an aroma bowl, add some Saunum aroma oil into it and enjoy!
