Standing Out from the Crowd

Modification by yourself to enrich its colors and style. You can match different styles with side boxes and rear racks at will such as: skateboard boy and camping enthusiasts.

Human-machine Collaboration for Intelligent Travel

With more than 15 sensing points, and 4G and Bluetooth communication, highly accurate and sensitive transmission is possible to achieve multi-party response from the owner, vehicle and data background.

Double shock absorbers provide good road feel

With motorcycle-grade shock absorption system, Pesgo one is more comfortable and safer, smoothly over speed bumps and potholes, not afraid of bumps.

Cross-riding form help you stand out from the Crowd

Breaking the traditional moped design, it persists Tromox cross-ride style. Step out of ordinary life situations and the street is your stage.

Specifications

Model	Pesgo one	Motor Power	800W
Type	Electric Bicycle	Top Speed	45km/h
Size	1552×730×950mm	Start	NFC, Remote control Tromox APP(4G)
Wheelbase	1114mm	Smart Controller	4G
Seat Height	710mm	Kick Stand Up Power Off	●
Range	70km	Burglar Alarm	●
Battery Type	Lithium Battery	Turn Signal	●
Battery Voltage	48V24Ah	Rearview Mirror	●
Charger	3A	Brake	Front: Disc brake Rear: Disc brake
Charging Time	5h	Front Suspension	Dual shock absorbers
Charge Mode	Battery Charge / Bike Charge	Rear Suspension	Central single absorber
BMS Management system	●		

Colors

Youth Blue

Space Grey

Freedom White

*The value of autonomy may vary considerably depending on the test environment. The results are based on the actual data of the vehicle speed test at a constant speed of 20km/h, with a rider weighing 75kg, and an ambient temperature of 25 degrees.
