

BYPASS-AIR CNC SPINDLE GRIPPER FOR HAAS VMC'S

**COMPLETE
KIT**

\$1,349.00

Why CNC Spindle Grippers?

- **Automated Part-Loading**
- Up to **12x Production**
- Reallocate Labor
- Lets **Machine Load Itself**
- Loads in Tool-Changer
- The **Most Cost-Effective** Entry into **Automation**

Bypass Gripper Features

- **No need for Through Air or TSC** w/ Bypass Block
- Complete Kit comes with Gripper Plates & Fingers
- **Installs in Minutes**; Works with Instant Solenoid Kit
- Grip parts up to 10lbs

Our patent-pending **Bypass-Air CNC Spindle Gripper** is the only available solution to add a CNC Spindle Gripper to your CNC machine when you don't have through air or coolant for in-machine automation. CNC Spindle Grippers let you load and unload parts fully automatically, and store away as tools in your ATC.

Complete kit includes:

- 1x Side-Air Spindle Gripper
- 1x Side-Mount Air Pass-Through
- 2x Gripper Mounting Plates
- 4x Small Round Fingers
- 4x Long Round Fingers
- 4x Rubber Compression Pads
- 1x Blue Storage Hard-Case

**NO THROUGH
SPINDLE AIR OR
COOLANT NEEDED!**

Our **Air-Bypass Block** bolts into two existing holes on your Haas spindle, meaning that installation takes only minutes.

Technical Specs

Pressure Range	0-140 psi
Repeatability	+/- 0.001"
Part Size Grip Range	0" – 4.125"
Recommended Part Weight	<10 lbs
Air Port Size	¼" Push Fitting
