

FROM \$1,949.00

75mm Air Vise Features

- **Ideal for Rotaries** and Small Parts
- **Spring-Based Backup Clamping**
- Compact Footprint
- High Durability
- High Clamping Force
- **Adjustable Hard Jaws**

Optional Accessories

- Instant Solenoid Kit for 5-minute Setup
- Optional Aluminum Soft Jaws for 2nd Ops
- **Optional Rotary 1.500" and 2.000" Base Plates**
- Extra Hard Jaws

The **Self-Centering Pneumatic CNC Vise** is the easiest solution for automated workholding for CNC Milling Machines. With a single solenoid connected to your machine (or even better, our **Instant Solenoid Kit**), you have an automatic workholding solution in minutes. Our Air Vises feature an all-steel construction, spring retention, a repeatability of 0.0008", and adjustable hard-jaws. It is best suited for rotaries and small parts.

75mm Vise Kit Includes:

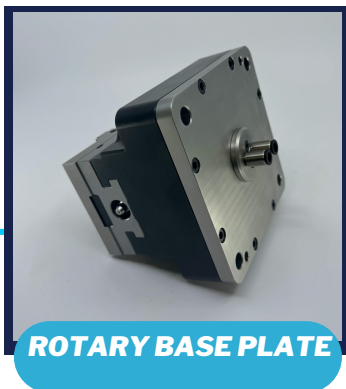

- 1x 75mm Pneumatic Vise
- Manual Operation Air Kit
- Serrated Hardened-Steel Jaws

Technical Specs	
Repeatability	0.0008"
Clamping Force	2,000 lbf
Clamping Width/Stroke	75mm/0.098"
Drive Pressure/Torque	95 psi
Max Pressure	130 psi
Max Jaw Height	2.4"
Weight	18 lbs

*Thanks to its Spring-Driven design, this vise provides **50% of its clamping force** when all air pressure is lost*
