We built our **Auto-Tumbling Basket** solution for sand and bead-blasters because we needed a non-permanent, affordable solution to bead-blast our own production parts. What came out of our R&D was an **affordable**, easy to use, removable Automatic Tumbling Basket with full speed control for less than one-third the cost of any competing products.

Complete kit includes:

- 1x Basket and Auto-Tumbler
- 1x External Magnetic-Mounting Control Box w/ Speed Control
 - 1x 12V Power Brick

Optional Accessory:

- Noga-Style Magnetic Blasting Gun Holder (\$69)

AUTOMATION. MADE EASY.
