

# MEET THE BAGS

Our goal was to make bags that we would actually be excited to carry, and that were designed to the specific needs of parents: to organize tons of stuff (our kids and our own), contain and clean up messes, and give quick access to what you need in a hurry, even one-handed if you're holding a kid in the other. Our high standards in materials and design details create a difference in quality that our customers can feel the moment they pick up our packs. We've launched with two distinct bag designs:

## READY 22: THE EVERYDAY BAG

A streamlined 22 liter pack that comfortably keeps everything you need for you and your small companions organized and at the ready. We built this bag to be a phenomenal everyday driver, with 11 pockets and compartments to provide visibility and fast access to whatever you want to keep close at hand.

## STEADY 26: THE BIG DAY / TRAVEL BAG

If you're planning for a long day or a long-flight with kids, you will want to have this 26L bag in tow. With two large compartments, each featuring multiple interior pockets, you can keep your own stuff and whatever you need for your family organized and accessible. We built smaller side and top compartments to access items that you need to grab quickly without having to dive into the main compartment.

## NEXT LEVEL FEATURES

Both of our bags share some core features that might seem over-engineered compared to other packs. We feel it's actually the standard of quality that parents deserve.

### **DESIGNED TO WORK FOR PARENTS ON THE GO:**

- Enclosed foam-insulated, TPU-coated waterproof pockets to keep bottles/beverages contained
- Exterior front and top compartments offer fast access to whatever is most important
- Full access with the main U-shaped zipper opening provides a full clamshell for easy packing and access
- Side-zipper to a padded laptop sleeve that doubles as a changing pad compartment
- Fast access front pocket for diapers and wipes or anything else you want to be able to access with one hand without needing to go into the main compartment

### **MATERIALS THAT ARE UP TO THE TASK:**

- Exterior: 420 denier CORDURA re/cor™ 100% Recycled Nylon
- Zippers: YKK all the way, we don't compromise on making it easy to get into our bags
- Pockets: TPU Coated 70D Nylon Pocket Liners to contain spills and clean easily
- Comfort: Stretch woven back panel and shoulder pads with cushioned foam for extra comfort

### **NEW BABY READY:**

- Both packs come with our foam cushioned changing mat with TPU coated nylon to clean spills and a fleece headrest for baby's comfort
- Aluminum G-hooks that connect at the top of the shoulder pads can be used to hang the backpack on most strollers
- Optional: Waterproof roll-top wet-dry bag to store soiled clothes or anything else messy that you want to contain.
- Optional: Packing cube set (2 cubes) to provide even more storage and organization within our pack system.
