---

### Sizes

750 mL × 6 – 18-0522-NVX6

1.5 L × 3 – 18-0522MNVX3

---

### Distributor's notes

100% Pinot Noir 5.5 gm/L Dosage  
30% Reserve wine (a Solera of reserve wines from 2007-2012)  
70% 2013 base

As per Alice Feiring: "This a classy and classic champagne, a perfect crossover for your friends who drink that LVMH brand with the orange label. Based on the 2013 vintage, the oldest wine inside this bottle is from 2006. The dosage is 5.5 grams which rounds out the acidity. It sure does go down easy. A champagne for standing up and gabbing, drinking, everyone have a party, let's celebrate and nibble. It's full of flavor, personality and pop, certainly on the fruit and it is lush without being "yeasty.""

---

### About the producer

Champagne Fleury has been run by the Fleury family for over a century, with each generation contributing to its reputation for innovation. In 1901, Emile Fleury became the first grower in Champagne to replant Pinot Noir after phylloxera. His son, Robert Fleury, then made the unusual decision to bottle his own champagne in 1929. In the 1970s, Jean-Pierre Fleury became concerned about the effects of chemical agriculture on the environment and began experimenting with manual tilling and composting followed by a trial of biodynamy on 3 hectares of the estate in 1989. Within 3 years he decided to apply those principles to the entirety of his vineyard holdings. In 1993, Gault-Millau elected Jean-Pierre winemaker of the year and the international recognition has continued. Located in the Côtes de Bar in the village of Courteron, the Fleury estate vineyards stretch 15 hectares on both slopes of the Seine valley.
