PUBLIC SERVICE ANNOUNCEMENT: WE'RE TAKING FAUX BOTANICALS OUT OF THE CLOSET!

INTO THE WILD

LOOSE, WILD AND TEXTURAL, THIS SEASON WE'VE EXPANDED OUR LEGENDARY FAUXS TO INCLUDE THE MOST INCREDIBLE SELECTION OF GRASSES, A FABULOUS SELECTION OF ENGLISH GARDEN FLOWERS AND MEADOW FLOWERS AS WELL AS A COMPREHENSIVE SELECTION OF PLANTS.

WE'RE MOVING THE EMPHASIS AWAY FROM TRADITIONAL HOTHOUSE BLOOMS AND INSTEAD HAVE SOUGHT OUT RARE BREED AND HEIRLOOM VARIETIES ALONG WITH BRANCHES OF BERRIES AND NATIVE FOLIAGE'S. WE'RE ALSO SHIFTING THE AESTHETIC AWAY FROM TRADITIONALLY OVERLY STYLED 'DOME' ARRANGEMENTS TO SOMETHING MUCH MORE FREE-FORM AND LOOSE.

WILD, SEASONALLY DRIVEN AND FABULOUS.

WE'RE TAKING FAUX BOTANICALS OUT OF THE CLOSET!

A close-up photograph of tall grasses and reeds. The plants have long, thin, green blades and large, golden-brown seed heads. The background is dark, making the plants stand out. The lighting is dramatic, highlighting the texture of the grass and the intricate details of the seed heads.

GRASSES AND RUSHES

There's a new movement afoot and we're pioneering it! Discover our ornamental and wild varieties of grasses and rushes. They provide the most beautiful decorative fringe either clustered together on their own or mixed in with our garden and meadow fauxs.

GARDEN FLOWERS

Heirloom tea roses, cosmos, sweet peas, fat headed hydrangeas, to name but a few along with branches of berries and native foliage, we're all about championing a free-form style with a just picked from the hedgerow softness.

We've emulated the beautiful discolouration you get in nature and we've been greatly inspired by many of the colour palettes found in 17th century Dutch Old Masters' paintings! Cool no?
