USING YOUR SOUNDBAR

PLACING THE SOUNDBAR ON THE TABLE

If your TV is a tabletop,you can place the soundbar on the table directly in front of the TV,centered with the TV screen.The subwoofer can be placed on aflat and stable surface.

WALL-MOUNTING THE SOUNDBAR

BASIC OPERATION

Before connecting the AC power,ensure that the power supply voltage corresponds to the voltage printed on the rating label of the product.
1. Insert the DC plug of the AC-DC power adaptor into the DC IN jack on the back of the soundbar unit,then connect the AC-DC adapter to an AC wall outlet.
2. Press the POWER button to switch the soundbar on.The LED display will light up and "BT" symbol will flash on the display.
3. Plug the connector of power cord into the AC socket on the back of the subwoofer,then plug it into the main power supply
4. The subwoofer will automatically get connected with soundbar.The Wireless Pairing led indicator changes to steady blue once the connection is carried out successfully.

PAIRING THE SUBWOOFER WITH
THE SOUNDBAR MANUALLY

For first time use,sometimes,the subwoofer cannot connect with the soundbar automatically.In such case,users need to pair them manually.

1.Ensure the soundbar is in powered on state and the subwoofer is powered off,press and hold the BT button on soundbar or on remote control for 3 seconds until "BT" symbol flashed on the display,the soundbar is ready for pairing with the subwoofer,and then press the POWER button to turn off the soundbar.

2.Power on the subwoofer,the Wireless PAIR Indicator blinks blue three times,then changes to steady red.

3.Restart soundbar by pressing the POWER button again,the Wireless PAIR Indicator changes to steady blue,thereby indicating the connection is successfully established.

CONNECTING AN EXTERNAL DEVICE

The figure above shows the various connectivity options available in the soundbar

SELECTING THE INPUT MODE

Short press the SOURCE button on the main unit or press the MODE button on the Remote Control to select amongst the various available input sources.

Input Moder	Display

Line Input (3.5mm)	LINE
Optical Input	OPT
ARC (HDMI OUT)	ARC

PLAYBACK WITH THE BLUETOOTH DEVICE

This soundbar can be used with any Bluetooth enabled device such as mobile phone,table,etc.The Bluetooth range is limited to approx 10 metres.Please ensure there is no obstruction between the soundbar and the Bluetooth device for proper operation.

PAIRING

Before using the soundbar with a compatible Bluetooth device,such as a mobile phone,table,etc.,you are required to pair and establish connection between them.

● Activate the Bluetooth on your device.
● In power on mode and automatically switch to BT mode,short press the BT button on the main unit or the MODE button on the remote control to select the Bluetooth mode."BT" symbol will flash on the display to show that the pairing mode is activated.
● Search for Devices and connect with MW-SB140BT2.1 from the list of available
● Bluetooth devices.
● If prompted,enter the passwaord 0000 to confirm.(Password may be required only when pairing devices for the first time).
● A voice prompt CONNECTED will confirm the connection and the "BT" symbol stops flashing.

Note: Only one Bluetooth device can be connected the soundbar.If the soundbar is already connected to a device,it will not appear in the Bluetooth selection list with a fresh scan.

Press and hold BT or ▶❙ button on remote control for 3 seconds to un-pair an existing Bluetooth connection and initiate a new device pairing in Bluetooth mode.
Press +/ - button on remote control or VOL + /VOL - button on the main unit to increase or decrease the volume level.

OPTICAL OPERATION

● The Soundbar can be connected to a television or any other device such as DVD player,play station,etc. having Optical output.
● Establish proper connectivity using an optical cable
● In Power On mode,short press the SOURCE button on the main unit or the MODE button on the remote control to select the OPTICAL mode and enjoy the audio.
● Press +/- button on remote control or VOL+/VOL- button on the main unit to increase or decrease the volume.

NOTE: If there is no sound from the soundbar and the status indicator LED blinks fast,make sure the digital output setting of the source play (e.g. TV,DVD player,game player) is set to PCM.

3.5MM LINE IN OPERATION

● Ensure that the unit is securely connected to the TV or other audio device via a 3.5mm audio cable
● While in Power On mode,press the SOURCE button on the main unit or MODE button on the remote control,till LINE flashes on display.
● Operate the device directly to start playback.

USB PLAYBACK

- While in Power On mode,short press the SOURCE button on the main unit or MODE button on the remote control,till USB flashes on display.
- Connect a USB storage device directly into the USB port,after a few seconds,it will start music playback automatically.
- Press the ⏮ or ⏭ button on remote control to go to the previous or next track.
