**10-3-6 PLUS
MYCORRHIZAE!**

WOW founder Ron Wallace is a professionally trained Executive Chef and graduate of the prestigious Johnson & Wales University in Providence, Rhode Island. His passion for gardening started at an early age, and since that time he has been on a mission to grow the world's largest pumpkin. He is today regarded as one of the world's premier gardeners. He is a two-time world record holder, three-time world champion and was the first grower in the world to grow a pumpkin over 1500 pounds (1502 in 2006) and in 2012 he was the first to eclipse the 2000-pound barrier at 2009 pounds. His passion for creating an organic soil for extreme growth has led to WOW Wallace Organic Wonder. WOW's key ingredient for dynamic growth is a fungus called Mycorrhizae, with the addition of WOW 5 month slow-release plant food. This strain has been living in soils for millions of years but has only recently been made available to home gardeners. Mycorrhizal fungi colonize plant roots, maximizing nutrient and water absorption producing stronger roots and more vigorous plants that produce more abundant vegetables and brilliant flowers!

WOW SUPER STARTER PAKS

WOW 5 MONTH SLOW-RELEASE SUPER STARTER PAKS FEED AT THE ROOTS

WOW's Super Starter Paks are formulated to provide the necessary nutrients and organic biology that all vegetables, flowers and herbs need to grow. WOW Starter Paks are pre-measured biodegradable planting paks giving your plants the correct amount of nutrients so you won't overfeed or burn them. WOW Starter Paks feed at the roots with no waste or runoff.

GUARANTEED ANALYSIS

TOTAL NITROGEN (N)*..... 10.00 %
3.4% Ammoniacal Nitrogen
3.8% Nitrate Nitrogen
2.7% Water Insoluble Nitrogen
0.1% Other Water Soluble Nitrogen
Available Phosphate (P₂O₅)*..... 3.00 %
Soluble Potash (K₂O)*..... 6.00 %
Calcium (Ca)..... 1.14 %
Magnesium (Mg)*..... 0.84 %
Sulfur (S) (Combined)..... 1.52 %

PLANT NUTRIENTS DERIVED FROM : Polymer Coated Ammonium Nitrate, Polymer Coated Potassium Sulfate, Polymer Coated Ammonium Phosphate, Polymer Coated Calcium Phosphate, Hydrolyzed feather meal, meat meal, bone meal, poultry meal, blood meal, fish meal, and Langbeinite.

*Contains 9.14% Slowly Available or Coated Slow Release Nitrogen

ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S):
Arbuscular Mycorrhizae:
Rhizophagus intraradices.....85 propagules/g

DIRECTIONS - USE AT TIME OF PLANTING

Simply dig hole for planting, place plant in center of hole and place pak(s) on sides of plant near root ball. Backfill hole with soil, tamp down and water. **DO NOT OPEN PAKS.** Biodegradable paks are designed to be placed in the ground or container INTACT!

TRANSPLANTING: Most flower, vegetable, and herb transplants will require 1 pak. Heavy feeders – like tomatoes, eggplant, squash, and peppers – will need 2 paks.

ESTABLISHED PLANTS: Dig hole down to the roots 3 inches from plant stem. Place one starter pak per hole carefully contacting roots, backfill with soil and water.

CONTAINER GARDENING & ESTABLISHED PLANTS

Up to a 12 inch pot: 1 pak	1 Gallon Container: 1-2 paks
18 inch pot: 2 paks	2 Gallon Container: 2-3 paks
24 inch pot: 2-3 paks	5 Gallon Container: 4-5 paks
30 inch pot: 4-5 paks	15 Gallon Container: 8-10 paks

FOR BEST RESULTS: Water with WOW WONDER BREW COMPOST TEA weekly for season-long sustainable gardening.
