

Essential 1-0-1 use on home lawns

2 oz per gal of water for regular maintenance

4 oz per gal of water for overseeding, or use on stress spots

Can be applied through hose-end sprayer, backpack sprayer, or even a watering can

Does not need to be watered in

Can be used around Trees & Ornamentals as well

Best time to apply is morning or evening, out of direct sunlight

Apply every 2-4 weeks

Best Practice – Use Ortho Dial A Spray (Hose End) – Cut off hose screen. Set the dial at 6. Put in 10 ounces of Essential and 22 ounces of water. When walking in a pattern, this amount will cover around 2500 SF.
