SPECIAL LINGUAL PLIERS

Distal Cinch Back Plier – Long Handle Serrated jaws, works perfectly with round NiTi Wires

Item-No. 557-0005M

New Style, bends NiTi wires distal to the molar tube. Long handle (total length: 142 mm).
Working range, NiTi .012 – .017 x .025

Same purpose as 557-0005M, but without serration.
Working range, NiTi .012 – .017 x .025

Item-No. 557-0005

Three Jaw Plier (Aderer)

Item-No. TASK-60-313

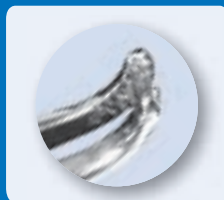

For permanent bending
of all NiTi wires.

Maximum bending
Capacity: Up to .028

Lingual Utility Plier

Item-No. 557-0001

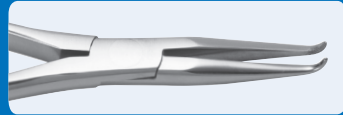

Slim, gracile plier, especially suited for the molar; lingual, but also vestibular. Total length: 145 mm.

SPECIAL LINGUAL PLIERS

Lingual Utility Plier Long Handle

Item-No. 557-0001XL

Long handle (total length: 175 mm).

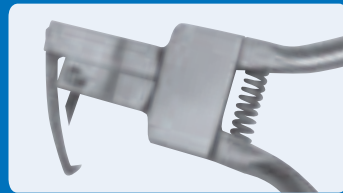

Lingual Debonding Plier – Modified

Item-No. 553-0431P

Lingual Debonding Plier. Ideal for debonding of lingual brackets in the front area.

Note: Now with lateral inbus screw to fix or replace the pin. It is very easy to fix or replace the pin.

Replacement Pin

Item-No. 553-0430

Debonding Plier for Molars

Item-No. 557-0006A

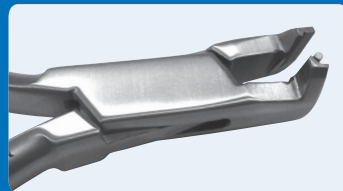

Debonding Plier. Modified special cutting edge to debond lingual brackets and tubes in the posterior area. Attention, no cutter! This modified Debonding Plier isn't suitable for cutting wires. The black colored handle prevents from confusion with cutters.

Lingual Distal End Cutter – Flush Cut

Item-No. 557-0004A

Long handle, easier access to lingual and posterior area. Cuts without rotational force. Safely cuts & holds distal end of wire. Maximum cutting capacity: Up to .019 x .025

SPECIAL PLIERS

Ezcurra Lingual Mini Distal End Cutter with Hold – Slim Long Handle

Item-No. 550-0510

NEW!
Replaces the plier
AEZ-803-0510.

Mini Distal End Cutter with Hold. The small tip designed for easier access allows the doctor to make a cut with 0.5 mm to the buccal tube, while the „hold“ feature prevents the wire from snapping. Smallest head of Distal End Cutters.

Maximum cutting capacity: Wires up to .019 × .025

Distal End Cutter Safety Hold – Flush Cut

Item-No. TASK-30-552

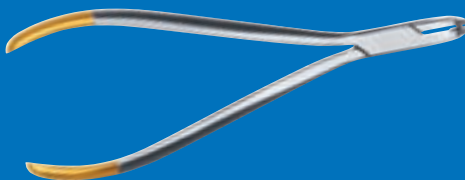

Lingual Distal End Cutter

Item-No. HF678-700

Occlusal view on the Lingual Distal End Cutter cutting the excess archwire distal to the buccal tube.

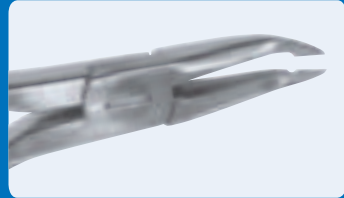

Cutting capacity: .012 to .018

SPECIAL LINGUAL PLIERS

Reversed Ligature Cutter – 40° Angle

Item-No. 550-0410

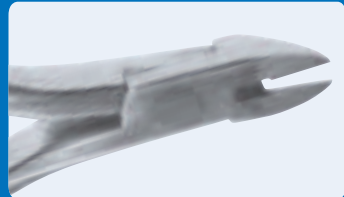

Ligature Cutter, same model as 550-0400 (see on catalog page B2 above), but with internal cutting surface. 40° angle. Cuts the ligature wire distal to the bracket.

Maximum cutting capacity: Ligature wires up to .008

Pin and Ligature Cutter

Item-No. 550-0605S

Slim Pin and Ligature Cutter for easy lingual access. Cuts the ligature wire mesial to the bracket.

Maximum cutting capacity: Ligature wires up to .015

Micro Mini Pin and Ligature Cutter – Long Handle

Item-No. 550-0107L

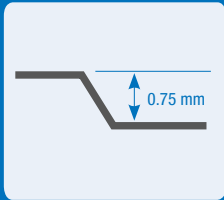

Long handle (total length: 135 mm).

Maximum cutting capacity: Ligature wires up to .012

SPECIAL PLIERS

Intraoral Detailing Plier – Left

Item-No. 551-0643A

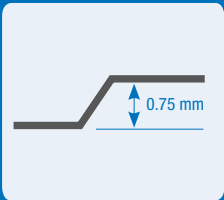

Ideal for finishing bends, bypasses and 2nd order bends.

Makes 0.75 mm bends (in/out, up/down).

Wires up to .018 x .025

Intraoral Detailing Plier – Right

Item-No. 551-0644A

Ideal for finishing bends, bypasses and 2nd order bends.

Makes 0.75 mm bends (in/out, up/down).

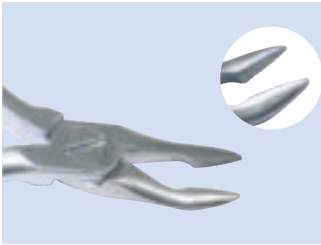

Wires up to .018 x .025

Weingart Utility Plier – Hardened Steel Insert

Serrated inserts made from hardened steel.

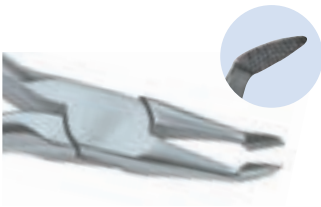

Item-No. TASK-60-501T

Weingart Utility Plier – Hardened Steel Insert

Precise closing, fine tips, very sturdy. With hardened steel inserts.

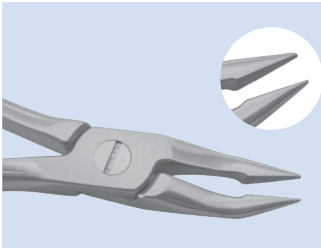

Item-No. 550-6556

Weingart Utility Plier Fine – Hardened Steel Insert

Fine tips. Serrated inserts made from hardened steel.

Item-No. 550-0502

Weingart Utility Plier XL – Long Handle

Weingart Utility Plier with fine, serrated tips. Long handle (total length: 155 mm) design allows easy posterior access.

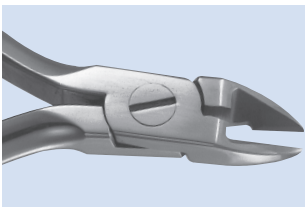

Item-No. 550-0505XL

Weingart Plier Gracile – Tungsten Carbide Insert

Gracile tips. Serrated inserts made from tungsten carbide.

Item-No. 550-0503A

Pin and Ligature Cutter Miniature – Hardened Steel Insert

Maximum cutting capacity: Soft wires up to .015

Item-No. TASK-60-605

TASK Ligature Cutter – Hardened Steel Insert

Ligature Cutter, same model as 550-0410 (see page A5), but with external cutting surface. 40° angle.

Maximum cutting capacity:

Ligature wires up to .008

Item-No. 550-0400

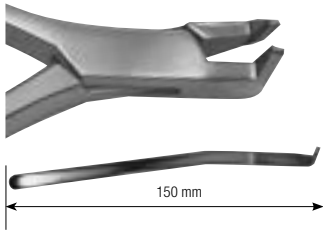

Hard Wire Cutter – Hardened Steel Insert

Maximum cutting capacity:

Hard wires up to .020, round

Item-No. TASK-60-604H

Distal End Safety Cutter Slim – Tungsten Carbide Insert

Long handle.

Maximum cutting capacity:

Rectangular wires up to .022 x .028

Round wires up to .020

Item-No. TASK-30-550SL

Distal End Safety Cutter

Maximum cutting capacity:

Rectangular wires up to .022 x .028

Round wires up to .020

Item-No. TASK-30-550

Lingual Distal End Cutter – Flush Cut

With steel inserts. Long handle, easier access to lingual and posterior area. Cuts without rotational force. Safely cuts & holds distal end of wire.

Cutter can be sterilized after removing rubber ring.

Ring to be sterilized separately.

Maximum cutting capacity:

Rectangular up to .019 x .025

Round up to .020

Item-No. 550-0550FL

Replacement Rubber Retaining Rings: 10 pieces per pack

Service life of the ring can be extended by rotating it after use. Ring to be sterilized separately.

Item-No. 550-0550-FL/R

**Distal End Cutter Long Handle –
Tungsten Carbide Insert**

With tungsten carbide inserts. Length: 150 mm.
Wires from .014 up to .021 x .025.

Item-No. 550-632/9TC

**Distal End Safety Cutter Slight Head –
Tungsten Carbide Insert**

With tungsten carbide inserts.
Wires from .012 – .021 x .025

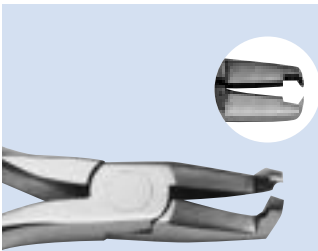

Item-No. 550-528L

**Direct Bond Attachment Removing Plier Angled –
Hardened Steel Insert**

With hardened steel inserts.

Item-No. TASK-60-334T

**Direct Bond Attachment Removing Plier –
Hardened Steel Insert**

With hardened steel inserts.

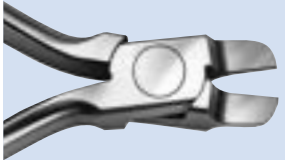

**Straight Item-No. TASK-TS-25
Angled Item-No. TASK-TS-26**

Tweed Arch Bending Plier – Hardened Steel Insert

With Inserts. Maximum bending capacity:
Rectangular wires up to .022 x .028

Item-No. TASK-60-303T

Tweed Arch Bending Plier

Wires up to .022 x .028

Item-No. TASK-60-303

Loop Forming Plier

Maximum bending capacity:
Wires up to .022

Item-No. TASK-60-305

Omega Loop Forming Plier

Wires up to .020

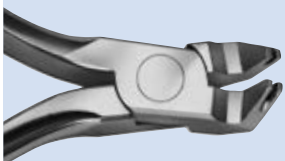

Item-No. TASK-60-304S

Kim Plier with Cutter

Wires up to .016 x .022

Item-No. TASK-60-430CK

Hook Crimping Plier – Angled

Item-No. TASK-60-446

Hook Crimping Plier – Straight

Item-No. TASK-P220

Heavy Three Jaw Plier (Aderer)

Wires up to .036

Item-No. TASK-60-313L

HU-FRIEDY PLIERS

Universal Distal End Cutter

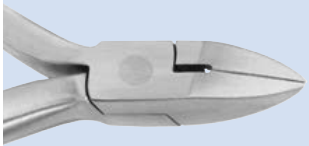

With normal or long handle. With hold.

Long handle, wire size: .021 x .025

Normal handle, wire size: .021 x .025

Item-No. HF678-101L

Item-No. HF678-101

Micro Mini Ligature Cutter – 15° Angle

Wire size up to .012

Item-No. HF678-109

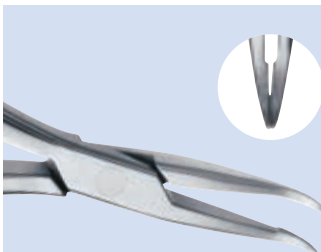

Lingual Pin and Ligature Cutter

Wire size up to .012

Item-No. HF678-701

Occlusal view to the Lingual Pin und Ligature Cutter cutting the excess steel ligature.

Lingual Weingart Plier

90° bend, up to .022

Item-No. HF678-702-90

Occlusal view to the Lingual Weingart Plier guiding the archwire into the bracket slot.

Lingual Mathieu Plier

Item-No. HF678-705

Occlusal view to the Lingual Mathieu Plier tying steel ligature to hold the arch wire into bracket slot.

Lingual Bracket Removing Plier

Item-No. HF678-703

Band Pusher Scaler Small

Item-No. 300-23-003

Micro Pin and Ligature Cutter

Narrow and slim head designed for easy access to hard-to-reach areas and for cutting soft wires, pins and elastics. Corrosion resistant metal inserts.

Soft wires up to .015"

Item-No. 300-5002

Pin and Ligature Cutter

Straight head, standard handle, abrasion and corrosion resistant metal inserts.

Soft wires up to .015"

Item-No. 300-5006

Ligature Cutter 40°

Standard handle, abrasion and corrosion resistant metal inserts, Metal inserted jaws ensure abrasion constant performance and reliability of cutting edges.

Soft wires up to .015"

Item-No. 300-5009

Hard Wire Cutter

Straight head, standard handle, abrasion and corrosion resistant metal inserts.

Wires up to .022 x .028"

Item-No. 300-5018

Distal End Cutter With Safety Hold – Long Handle

Long handle, tungsten carbide inserted jaws.

Minimum: Wires up to .014

Maximum: Wires up to .021 x .025"

Item-No. 300-5028

Distal End Cutter With Short Head

Narrow and slim head, tungsten carbide inserted jaws.

Minimum: Wires up to .012
Maximum: Wires up to .022 x .028"

Item-No. 300-5029

Flush Cut Distal End Cutter Safety Hold

Narrow and slim head, standard handle, tungsten carbide inserted jaws.

Minimum: Wires up to .014
Maximum: Wires up to .021 x .025"

Item-No. 300-5026

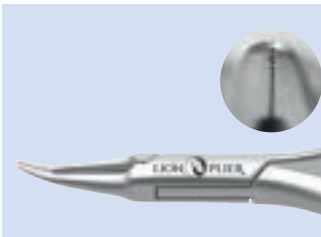

Flush Cut Distal End Cutter Safety Hold – Long Handle

Long handle, tungsten carbide inserted jaws.

Minimum: Wires up to .014
Maximum: Wires up to .021 x .025"

Item-No. 300-5030

Weingart Plier Slim

Standard handle. Slim jaws provide easy access to difficult areas. Bends and holds round, square and rectangular wires up to .030"

Item-No. 300-5032

Weingart Plier Angled Short Beak

Short beak, standard or long handle, precise and accurate work. Narrow and slim head allowing easy access to all areas.

Wires up to .030"

Standard Handle
Long Handle

Item-No. 300-5040
Item-No. 300-5040L

Complete Lions pliers catalog on request.

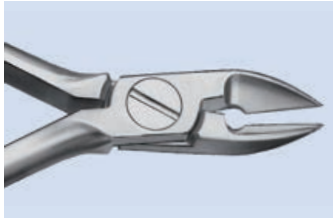

SCHWERT PLIERS

Ligature Cutter

Length: 11.5 cm.
With HCS inserts and screw lock.
Soft wires up to .016/0.4 mm

Item-No. 550-5248

Ligature Cutter

Length: 12.0 cm.
With HCS inserts and screw lock.
Soft wires up to .020/0.5 mm

Item-No. 550-5253

Wire Cutter

Length: 12.0 cm.
With HCS inserts and screw lock.
Hard wires up to .028/0.7 mm

Item-No. 550-5254

Mini Distal End Cutter

Length: 12.0 cm.
With extra hard steel inserts.
Hard wires up to .022 x .028/0.56 mm x 0.70 mm

Item-No. 550-5230

SCHWERT LABOR PLIERS

Flat Nose Plier Crovana

Length: 12.5 cm. Serrated tips.
Wires up to .028/0.7 mm

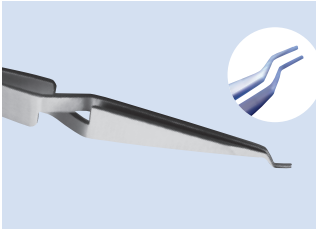

Item-No. 550-5022

Lingual Bracket Tweezer Fine

Angulated fine, self-locking. Slim tips for positive grip, one tip fits into the slot of any lingual or buccal bracket.

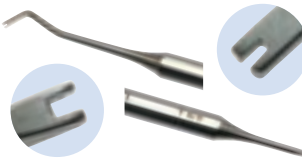

Item-No. 553-0503

Lingual Tube Tweezer Offset Fine – Modified

Angulated fine, self-locking. Slim tips for positive grip, one tip fits into the slot of any lingual or buccal tube, with offset.

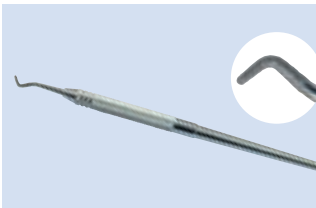

Item-No. 553-0504

Ligature Director (Tucker) Double Ended

Slot in tips is chamfered to avoid damaging elastics. Both ends are useful for intraoral finishing bends.

Item-No. 560-0010

Diamond Ligature Director

The diamond coated tip prevents slipping and simplifies the correct placing of ligatures.

Item-No. TASK-74822

Probe Short Explorer

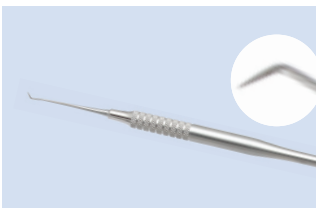

5 mm tip. Slightly serrated handle.

A: thin handle, \varnothing 4.5 mm

Item-No. 553-3007

B: thick handle, \varnothing 6.0 mm

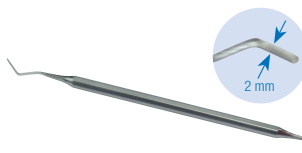

Item-No. 553-3008

Angled Explorer Single Sided

Thicker handle \varnothing 8,1 mm.

Item-No. 300-33-012

Spatula Heidemann

Spatula, elastic, extra flexible. 160 mm

Item-No. ADE-420

Mosquito Forceps Straight

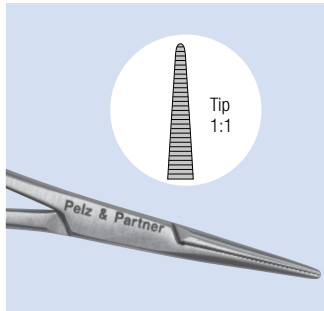

For easy placement of elastic modules, serrated tips for positive gripping.

Item-No. 554-1020

Mosquito Forceps Curved

For easy placement of elastic modules, serrated tips for positive gripping.

Item-No. 554-1021

Smaha Forceps Needle Holder Straight – Mathieu Style

Allows access to lingual and posterior areas. Very slim beak, with serration.

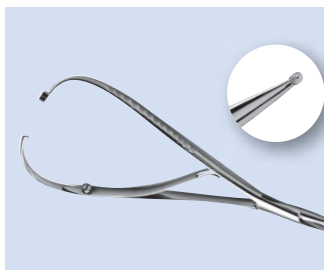

Item-No. 554-1026

Smaha Forceps Needle Holder Curved – Mathieu Style

Allows access to lingual and posterior areas. Very slim beak, with serration.

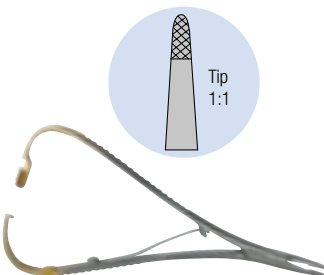

Item-No. 554-1025

Elastic Needle Holder Hook Tip – Without Serrated Tips

With small hook on the tip. For easy placement of elastic modules, without serrated tips.

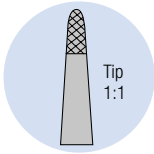

Item-No. 550-0216

Needle Holder – Mathieu Style

With tungsten carbide inserts and small tips.

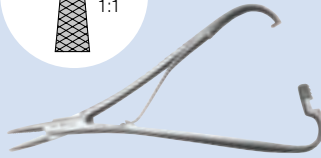

Item-No. OL-200-503PE

Needle Holder Lobster – Mathieu Style

Mathieu style ligating plier.
Excellent for placement of elastic ligatures.
Locking handle provides non slip grip.

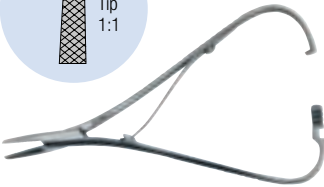

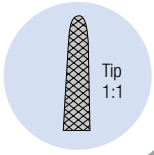

Item-No. OL-200-701MK

Needle Holder – Mathieu Style

Standard, narrow serrated tips.

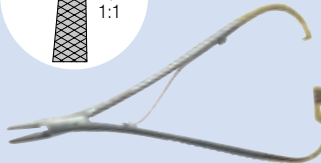

Item-No. OL-200-504PS

Needle Holder – Mathieu Style

Standard, medium serrated tips.

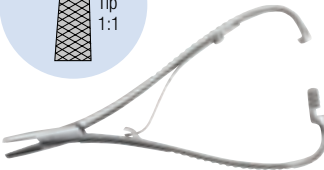

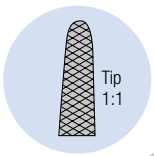

Item-No. 580-0026A

Needle Holder – Mathieu Style

Standard, medium serrated tips,
with TC inserts.

Item-No. OL-200-503PB

Needle Holder – Mathieu Style

Standard, wide serrated tips.

Item-No. 580-0026

PLIER RACKS

Pliers Carousel

Designed for easy reach and visibility.
The inner clear tube holds additional straight instruments. Clear plastic.

127 mm diameter footing, 38 mm inner ring

INSTRUMENT CARE

ILS Lubricant Spray

Hu-Friedly Care spray for free-standing hinge instruments. To avoid corrosion. Application after each cleaning.

236 ml bottle

Item-HF-ILS

Instrument Oil-Care Pen

Precision point oilers for lubrication and conservation of pliers hinges. Clean and precise. The synthetic food grade, high-tech oil is transparent and odourless. In contrast to oils based on mineral oils, it is toxicologically harmless. All the ingredients are USDA approved and comply with the FDA or the German pharmacopoeia (DAB). It also provides outstanding high-temperature stability (flash point 260° C), excellent wear protection as well as lubrication and penetrating properties. The oil is suitable for all sterilisation procedures. During sterilization, the oil spreads evenly in the joint and rinses out possible dirt residues. No oiling is necessary. Drops are applied optimally at room temperature.

2 pieces in case

Item-No. OL-200-990

Important!
Oil your pliers after each cleaning.

Plastic Conditioner

For bonding to composite restorations and acrylic appliances.

10 cc bottle

Item-No. 740-3501

Porcelain Conditioner

For bonding to ceramic crowns.

8 cc bottle

Item-No. 740-3502

Metal Primer

For bonding to gold, stainless steel and amalgam.

8 cc bottle

Item-No. 740-3503

Porc Etch with Barrier Gel

Porcelain Etching Agent with Barrier Gel.

**Porc Etch: 7 g bottle
with Barrier Gel: 3 cc bottle**

Item-No. 740-3504

Barrier Gel: 3 cc bottle

Item-No. 740-3504/B

Maximum Cure Sealant A

For indirect bonding with silicon tray. Chemically curing. Store in the fridge.

20 g bottle

Item-No. 740-3507

7 g bottle

Item-No. 740-3505

Maximum Cure Sealant B

For indirect bonding with silicon tray. Chemically curing. Store in the fridge.

20 g bottle

Item-No. 740-3508

7 g bottle

Item-No. 740-3506

We carry all Reliance Products!

Maximum Cure Cooler

Very efficient for cooling and storage of Maximum Cure A & B at the chair side. For two 20 g bottles. Blue, special aluminium alloy.

Item-No. 740-3600

Nexus III

Chemical and light cure composite. Clear. Double syringe 5 g, including 10 mixing tips. Recommended for rebonding of lingual brackets.

5 g syringe, 10 mixing tips

Item-No. 740-4336N

Nexus III Automix Tips

Refill Automix Tips.

50 pieces per pack

Item-No. 740-4338N

Excite F DSC

Refill Regular. Soft Touch™ single dose. For bonding with clear transfer trays. Contains fluoride.

20 x 0.1 g per pack

Item-No. 740-1262

50 x 0.1 g per pack

Item-No. 740-1261

Rely-a-Bond

Single-phase orthodontic bonding system. For bonding to metal, composite and ceramic brackets.

Paste: 4 x 3.5 g syringes

Item-No. 740-3001

Paste: 14 g jar

Item-No. 740-3002

Light Bond and Light Bond Thin

Curing recommended with L.E.D. lamps.
Wavelength: 440 – 480 nm.

Kit: 4 x 5 g Light Bond Paste in push syringe;

2 bottles Sealant Resin à 3 cc;

23 cc Liquid Etchant

Item-No. 740-7004

**1 x 5 g syringe Light Bond Paste Thin
for rebonding**

Item-No. 740-7006/TH

4 x 5 g syringes Light Bond Paste

Item-No. 740-7001

3 cc bottle Light Bond Sealant

Item-No. 740-7002

Ultra Band-Lok

Light activated single paste. Band cement.

Ivory: 1 x 5 g syringe

Item-No. 740-5008

Blue: 1 x 5 g syringe

Item-No. 740-5007

Pro Seal for Halogen Lamp

Light cure fluorescing agent. Highly filled sealant. Contains fluoride.
Halogen or high intensity curing lamps: wavelength 390 – 440 nm.

6 cc bottle

Item-No. 740-7020

Pro Seal L.E.D.

Light cure filled sealant. Contains fluoride.
L.E.D. curing lamps: wavelength 440 – 480 nm.

6 cc bottle

Item-No. 740-7025

Assure / Assure Plus

Universal bond enhancer for wet or dry environment.

Assure 6 cc bottle

Item-No. 740-6501

Assure Plus 6 cc bottle

Item-No. 740-6503

Light Cure Retainer Paste

Flowable, light cure orthodontic adhesive.

5 cc syringe

Item-No. 740-7011

Flow Tain LC / Flow Tain LC, LV

Flowable, light-cured composite. Ideal for lingual retainers, good application by needle tip.

Flow Tain LC:

1,5 g syringe + 10 tips

Item-No. 740-7000

Flow Tain LC, low viscosity:

1,5 g syringe + 10 tips

Item-No. 740-7000/LV

Etch Rite

Viscous phosphorus gel (38%) for the etching of enamel and dentin. Effects easy application to multi-banded appliances.

4 syringes, à 1.2 ml

Item-No. 0L-002-2100

24 syringes, à 1.2 ml

Item-No. 0L-002-2130

Jumbo-Kit, 2 x 25 ml (64 g)

5 x 3 ml empty syringes, 50 tips

Item-No. 0L-002-2140

Jumbo-Refill, 2 x 25 ml (64 g)

Item-No. 0L-002-2150

50 Needle tips, curved

Item-No. 0L-002-2170

Etchant Agent Liquid

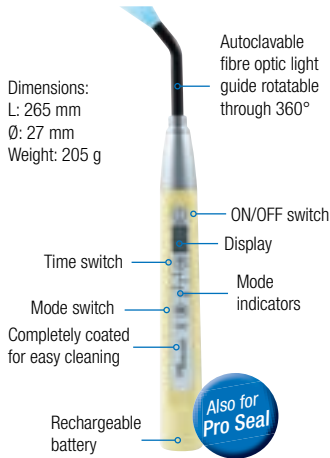

37% phosphoric acid. For use on enamel to prepare the surface for bonding.

9 g bottle

Item-No. 740-4500

18 g bottle

Rely X Unicem 2 – Automix

- Clinically tested self-adhesive cement, with a very low risk of postoperative sensitivities.
- Unique self-adhesive chemistry for very high bond strength, eliminating the need for etching, priming and bonding.
- Limited discolouration, ensuring long-lasting aesthetics.

**8,5 g base paste/catalyst paste,
15 automix tips + 5 endo tips**

Item-No. PP-56846

Concise

Bonding Kit.

**18 g paste A, 18 g paste B,
6 cc resin A, 6 cc resin B,
9 cc etching liquid,
200 applicator sponges,
2 blocks, 50 mixing spatulas,
3 application brushes**

Item-No. PP-196-001

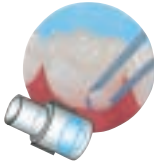

Transbond IDB

Transbond IDB Pre-Mix Chemical Cure Adhesive.

**10 g component A + B,
200 applicators,
20 disposable containers**

Item-No. PP-712-120

Mini Mold Button Bonder Kit

Creates a functional lingual button without impression by using light cure composite.

10 tips + handle per pack

Item-No. 625-0701

Mini Mold Habit Control Spike Bonder Kit

Forms a small conical spike on the lingual of the incisors. Great for correcting thumb sucking and tongue thrusting with minimal chair time.

10 tips + handle per pack

Item-No. 625-0704

Mini Mold Bite Ramp Kit

Creates a bite-opening ramp on the lingual of the upper anterior teeth by using light cure composite.

8 tips (3 mm) + handle per pack

Item-No. 625-0702

8 tips (5 mm) + handle per pack

Item-No. 625-0702/5

Mini Mold Starter Kit

Creates 9 different shapes of composite attachments, using light cure composite. Wire Bonder (large and small), Bracket Bonder, Button Bonder, Habit Control, Molar Pad, Bite Ramp (3 mm and 5 mm), Tube Bonder.

9 different molds (3 ea.) + 2 handles

Item-No. 625-0700

Mini Mold Handle

1 handle per pack

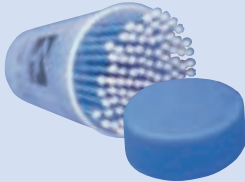

Item-No. 625-0709

Monoart Mixing Cups White

5 x 50 pieces per pack

Item-No. 735-1041

Monoart Flexible Applicators Blue

2 x 100 pieces per pack

Item-No. 735-1025

Parotisroll

Size 1: 80 mm, \varnothing 9 mm

Bonding Adhesive Remover

Carbide bur, conical round, right angle. Special shape, with rounded blades to the „neck“. Removes residual adhesive without enamel damages.

Length of head: 4.4 mm

Ø .016 5 pieces per pack

Item-No. 820-9016

Bonding Adhesive Remover

Carbide bur, conical round, friction grip, turbine.

Length of head: 4.4 mm

Ø .016 5 pieces per pack

Item-No. 820-9016FG

Bonding Adhesive Remover

Carbide bur, conical round, friction grip, turbine.

With rounded blades to the „neck“.

Length of head: 4.7 mm

Ø .016 5 pieces per pack

Item-No. 820-9017FG

Lingual Bonding Adhesive Remover

Carbide bur, egg-shape, right angle, ideal bond remover for concave surfaces.

Length of head: 4.2 mm

Ø .023 5 pieces per pack

Item-No. 820-9379

Lingual Bonding Adhesive Remover

Friction grip, turbine.

Length of head: 4.2 mm

Ø .023 5 pieces per pack

Item-No. 820-9379FG

Bonding Adhesive Remover

Carbide bur, conical round.

Length of head: 6.0 mm

Ø .016 5 pieces per pack

Item-No. 820-9282

Bonding Adhesive Remover

Friction grip, turbine, conical round.

Length of head: 6.0 mm

Ø .016 5 pieces per pack

Item-No. 820-9282FG

Diamant Round

Right angle. Diamant bur, for grinding any type of metal attachments / materials.

Ø .035 5 pieces per pack

Item-No. 820-9835

Ø .023 5 pieces per pack

Item-No. 820-9823

Diamant Round

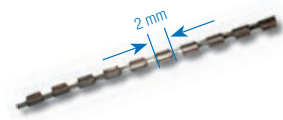

Friction grip, turbine.

NiTi Super Elastic Archwires

The nickel-titanium alloy allows specific properties, which make this wire the ideal treatment material. The super elastic NiTi wires operate at higher elasticity and lower stiffness with a very smooth and constant force effect. The excellent shape retention with the simultaneous resistance and predictable forces ensure fast results without the necessity of many adaptations or modifications. As a consequence, length of treatment is considerably reduced.

NiTi Thermal Active Archwires

NiTi Thermal Active wires is Dead Soft when chilled below 5°C. The ideal force is achieved at 32°C. The wire distinguishes itself by the following properties: Smooth and consistent release of forces at a low and consistent force level as well as high deformation resistance.

Beta Titanium Archwires

The quality of Beta Titanium wires lies between the bending properties of stainless steel wires and the flexibility of NiTi wires. Its hardness is about 42% of stainless steel wires and is easy to bend and easy to handle. It is perfectly suitable in the final treatment phase to apply stops or loops.

RCS NiTi Superelastic Archwires

RCS NiTi Superelastic offers superb rebound and memory characteristics to ensure desired results without the need for adjustment or modification. It allows a high degree of deflection without causing deformation of the original arch form characteristics. Efficiency of performance ensures achievement of objectives without the need for multiple staging of archwires as with stainless steel alternatives.

the sterilization instructions!**

Ultra FS High Tech Mirrors

High Tech for High Quality

Superior reflection in terms of sharpness, natural colors and brightness. Developed and optimized by ion-beam-curing, our Photo Mirror achieve unsurpassed reflection and coating hardness.

- Exactly sharp, distortion-free, high-contrast image to the smallest detail.
- Brilliant color naturally and pleasantly light at an optimal uniform reflectance spectrum.
- Highly resistant to all kinds of disinfection and sterilization (180°C) to acidic refresh cleaners.

Improved formula

Dreve Dynax® putty

Dental impression material on the basis of vinylpolysiloxane.

Advantages

- Non-sticky, easily kneadable consistency
- Suitable for sandwich-, correction-, double mixing technique and valve border impressions
- Especially suitable for patients with remaining teeth suffering from periodontitis
- Scannable surface
- High hydrophilic properties
- Innovative snap-effect
- Outmatched mechanical properties

Technical Data

Colour	sunny yellow
Final hardness	60 Shore A
Consistency	kneadable type 0
Processing time	90 sec.
Removal	after 90 sec.
Mixing ratio of components A+B	1:1

2 x 450 ml (1 x A/1 x B) incl. dosing spoons [Item-No. D6101](#)

Dreve Dynax® light

Addition-curing, thin flowing correction silicone with outstanding detail precision and perfect thixotropy for the correction technique.

The Aqualizer™ - The Original

Water splint relaxes muscles and relieves pain

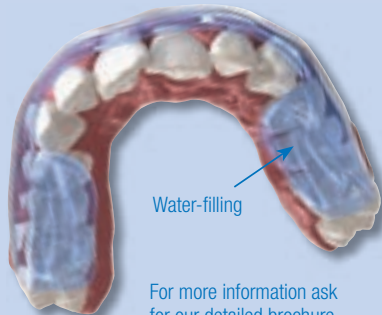

The Aqualizer™ is a hydrostatic bite-splint, which can be immediately incorporated to each patient without preparation or laboratory work. The Aqualizer™s built-in fluid-system adjusts automatically to the patient's anatomy. It allows you to treat your patient's pain or stiffness quickly and accurately. For primary care and introduction to a therapie, the Aqualizer™ has proven effective.

The Aqualizer™ offers three fluid volumes: Low (1 mm), Medium (2 mm) and High (3 mm). The volume of fluid in the Aqualizer™ controls the vertical dimension. All fluid volumes cover the same arch length.

The Aqualizer™ supports the treatment of typical TMD syndrome symptoms

- Persistent TMJ pain and headaches. The pain can be mild or severe and can start in the front of the head, along the sides, in the upper part of the neck, or it can radiate to all areas.
- Ear pain or stuffiness and tinnitus.
- Facial pain or tightness.
- Limited ability to open the mouth.
- Pain above or behind the eyes, neck and shoulder pain

Aqualizer™ Slim (Classic)

The original design. Can cause irritation in susceptible patients at the gingival but is resistant to strong biting forces.

- High, 3 mm fluid volume** [Item-No. Z-AQ-300](#)
- Medium, 2 mm fluid volume** [Item-No. Z-AQ-301](#)
- Low, 1 mm fluid volume** [Item-No. Z-AQ-304](#)

Aqualizer™ Ultra

The Aqualizer™ Ultra is a new improved version of the Aqualizer™ designed to be more comfortable to the gums than previous models. This is our bestseller and will fit most adult patients' mouths.

- High, 3 mm fluid volume** [Item-No. Z-AQ-305](#)
- Medium, 2 mm fluid volume** [Item-No. Z-AQ-306](#)
- Low, 1 mm fluid volume** [Item-No. Z-AQ-307](#)

Aqualizer™ Mini

- High, 3 mm fluid volume** [Item-No. Z-AQ-308](#)
- Medium, 2 mm fluid volume** [Item-No. Z-AQ-309](#)
- Low, 1 mm fluid volume** [Item-No. Z-AQ-310](#)
