LUXURY OUTDOOR LIVING FOR YOUR FAMILY AND FRIENDS

We specialize in Luxury Outdoor Kitchens that are built to withstand any weather. We have pre-designed a selection of 14 "Escapes" that are just right for some serious grilling or just plain having fun. Each "Escape" comes complete with luxury outdoor appliances and stylish outdoor cabinetry that has a Lifetime Warranty. Add in the Italian porcelain countertop, with a 15-year Warranty, and you have the perfect combination of luxurious finishes with hard wearing durability, that will make your outdoor kitchen the envy of the neighborhood. Because they are freestanding on adjustable stainless-steel legs, no permits are typically required for the set-up of your new outdoor kitchen.

With 2 door styles in 13 cabinet colors and 8 countertop designs that come in either a matte or polished finish, there are close to 500 different variations to choose from. After you add in the numerous appliance options such as a stainless-steel door fridge, dual zone wine cooler, glass door fridge, dual tap kegerator etc. You have the ability to customize your personal "Escape" in any of thousands of different ways. Even though your "Escape" is personally customized the benefits of our computerized yield maximization program mean that there is minimal material waste and that results in maximum savings for you.

Any of these "Escapes" can be paired "galley" style or joined together to make an "L-shape" or a "U-shape". Select the "Escape" package that best suits your space and we can have it delivered and fully set-up in as little as four to six weeks.

We can also work with you to custom design and personalize your perfect outdoor paradise using our proprietary 2020 CAD design system.

Escape 1 103.25"x30" 117.25"x40"

Escape 2 115.25"x30" 129.25"x40"

Escape 3 114.5"x30" 128.5"x40"

LUXURY CUSTOM OUTDOOR KITCHEN LIVING DESIGNED BY YOU

Florida Outdoor Kitchen cabinetry boxes are manufactured in the U.S.A. using $\frac{3}{4}$ " thick All-Weatherboard® composite material, which is manufactured using a waterproof resin, and they feature stainless steel hardware and handles. Cabinet doors and drawer fronts are crafted from durable High Density Polyethylene (HDPE) and available in a selection of solid colors and woodgrain inspired designs. Cabinets are factory built to order in a wide variety of sizes and configurations, making Florida Outdoor Kitchen cabinets ideal for outdoor kitchen, wet room and garage applications.
