8. Attention and Q & A:

A. How to reconnect and operation when failed to reconnect ?
When TH10B connected with your mobile phone successfully at the first time, it will search and reconnect the paired device automatically when power on, If failed, please pair and connect again.

B. How to Delete paired records?
In Power on state, long press the volume+ and the volume- button for 5 seconds to clear the pairing record. The indicator Blue and Red LED flashes once at the same time that means the pairing record has been cleared, and the TH10B will not connect back to the connected device. When there are various connection problem, try clearing the pairing record firstly.

C. What' s the password for pairing?
Some connection devices require password for pairing, pls try 0000 or 8888 or 1111 or 1234.

D. What devices could charge for the headphone?
Any car charger, power bank, PC etc which meet DC 5V , charging current more than 500mA could be charge for this item.

E. If there are some exceptions such as not being able to power on, abnormal connection and so on?
You can try charging reset: plug the charging line for charging, you can complete the reset and power off, and then restart the machine for use.

F. Three-way calling function operation
Call coming during call, short press the MFB to answer the new call and hang up the current call; Call coming during the call, double press the MFB to answer the new call and keep the current call; Call with a new call coming, long press the MFB for 1 second rejecting a new call.
When you are on a three-party call, double press the MFB to switch audio between the current call and the keep call.
