

What's your ring size?

Line up the **inside** of your ring to the circles to find what size it is!

Carefully cut along the black line and make a slit along the dotted line. Insert right end through the slit and put it around the desired fingers to find which size they are! Tip: write down all of your ring sizes so you always have them!

MAKE SURE TO PRINT THIS AT 100%. To make sure it is the right size line up a ruler here -
