

6th Grade Success Tips

Want to have a great sixth grade year? These 10 tips are a good place to start!

1. Have routines.

Have a morning routine that gets your day off to a good start, and a nighttime routine that includes getting everything ready for the next day before you go to bed.

2. Get organized.

Use a planner to write down homework, tests, and activities. Make to-do lists and cross things off as you complete them.

3. Study smart.

Create a daily homework plan. Decide what you need to get done and the order in which you're going to do it. Break up large assignments into smaller parts.

4. Learn in class.

When you're in class, ask and answer questions, and participate in discussions. You'll learn more, get better grades, and the time will go a lot faster.

5. Make good choices.

You are responsible for what you say and do—so think before you act, speak, or post something online. Consider the consequences!

6. Join something.

Joining a club or team is a great way to make friends and have some fun.

7. Set goals.

Goals give you direction, focus, and purpose. Set some goals to work toward at school and at home.

8. Do things for yourself.

Make an effort this year to do things on your own—like getting your homework done without being reminded.

9. Be smart with technology.

Never post anything that's mean, rude, or embarrassing. *And don't spend too much time online!*

10. Build good character.

Be kind to everyone and try to always do the right thing. Be the kind of person you would want to be around!
